GIMME KEY PRO

Wireless DEX for DSD and Vending

WHY YOU SHOULD INVEST IN THE HIGHEST QUALITY DEX SOLUTION ON THE MARKET

WHAT IS DEX?

DEX, Direct Exchange, is a form of electronic data interchange, EDI, used by direct store delivery, DSD, distributors to electronically send their delivery information, invoices and/or credit memos to the retailer at the time of delivery. DEX is used by all major grocery retailers as well as numerous smaller chains and convenience stores.

DEX provides an easier exchange of information at the point of delivery. It reduces both the time spent at the point of delivery as well as the chance for error between the driver and the receiver. By giving all the previous sales data, drivers are better able to project future deliveries and keep track of past deliveries

~2 year battery life, no charging

46% faster to accomplish DEX procedure

100x stronger than previous generation

Reduce risk of 15 - 20 minute delays at every stop

16k+ routes deployed in first 8 months
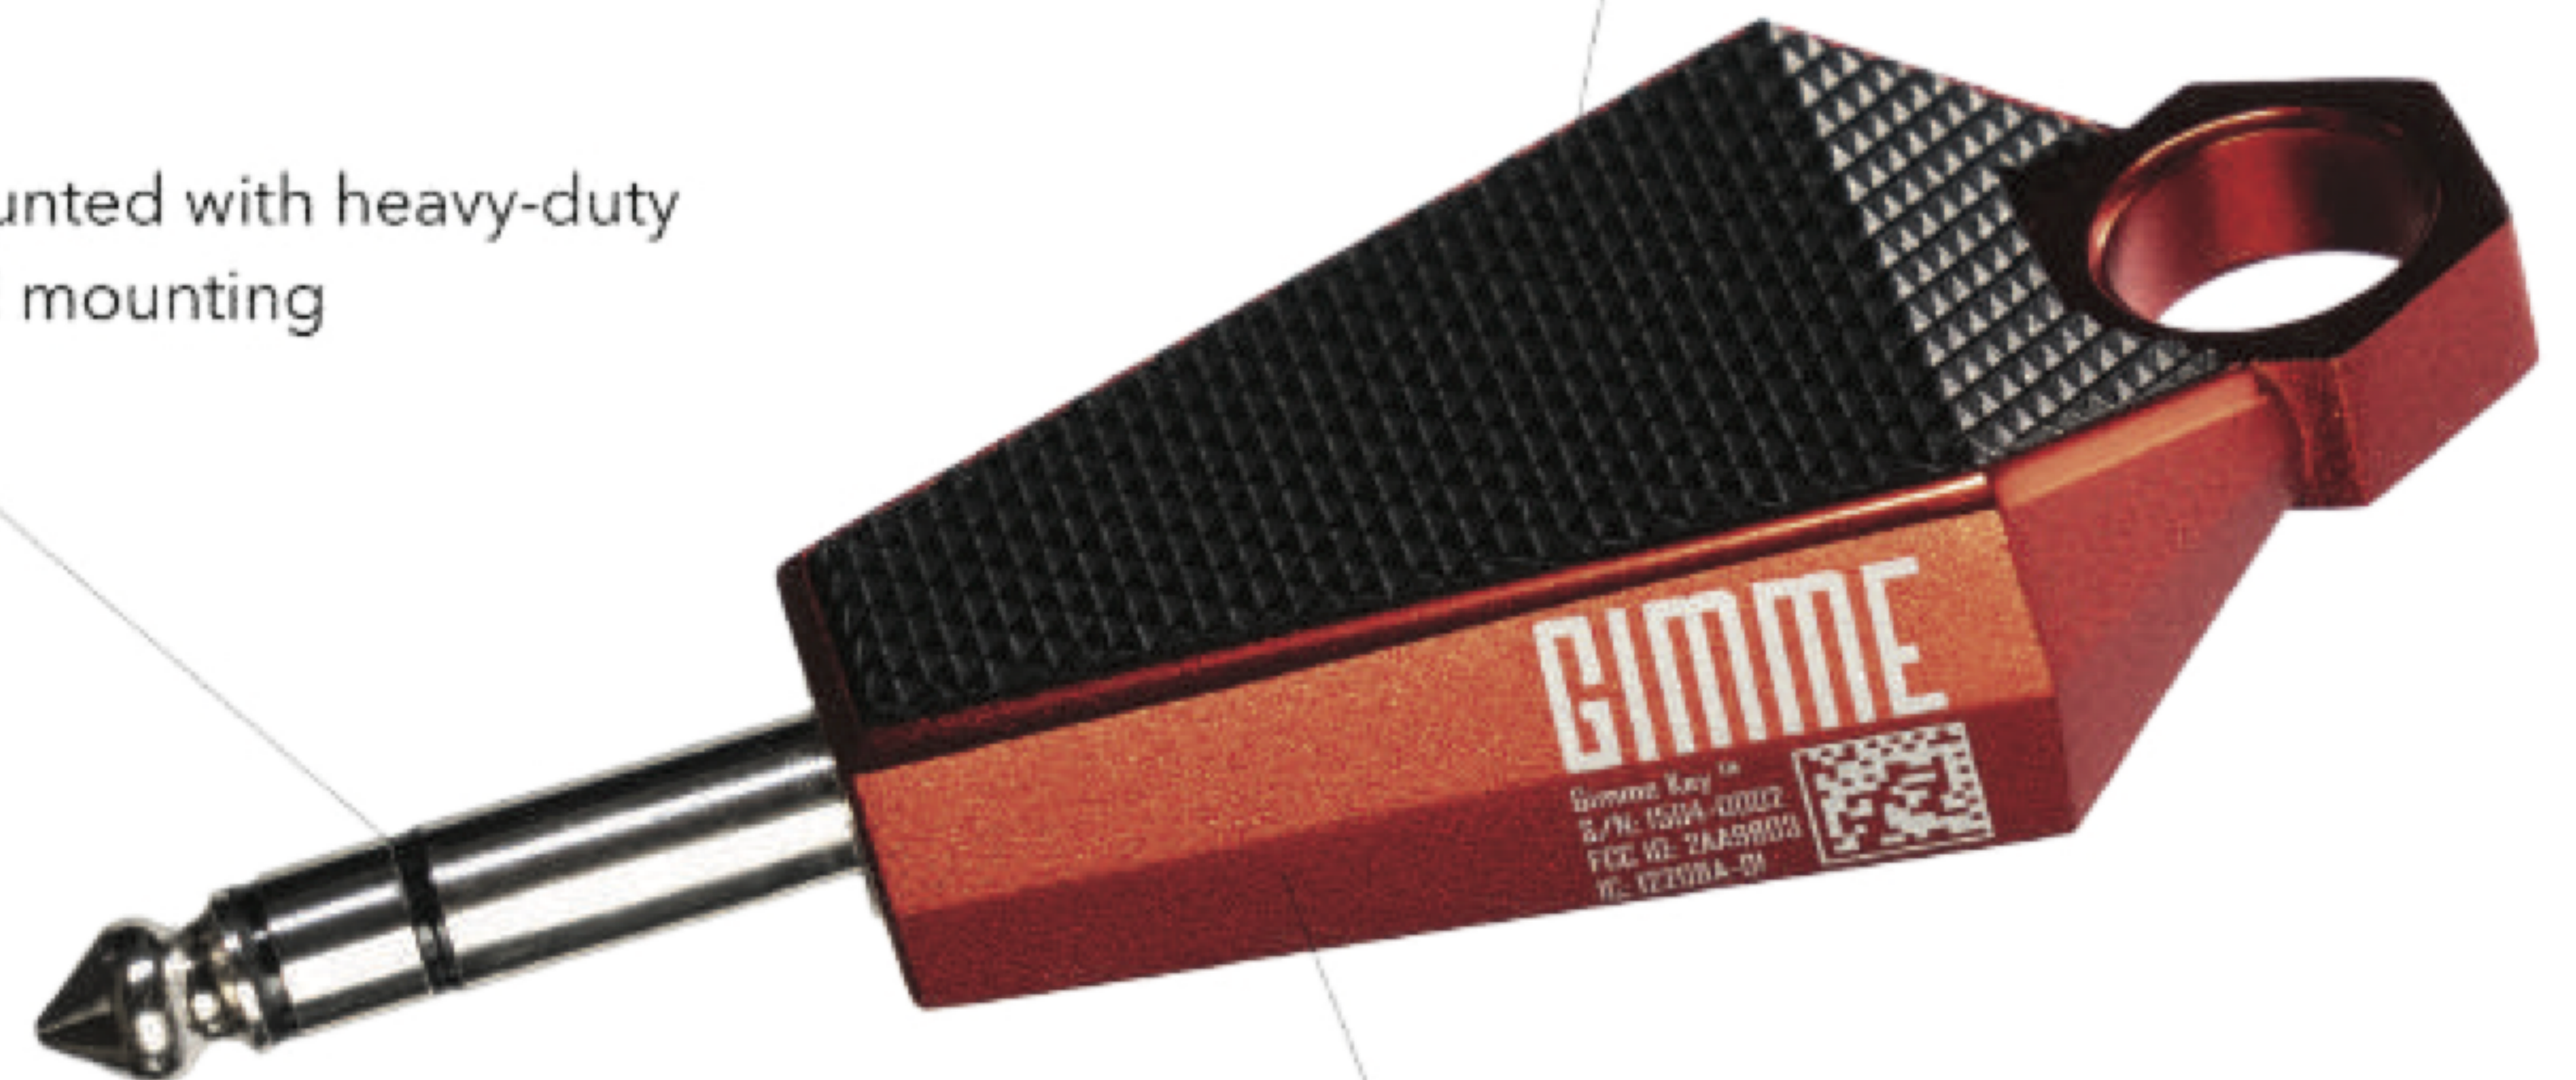

WHY DEX?

SPECS

- ARM Cortex-M4F Processor
- A838 aluminum die-cast anodized alloy
- UL94 V-0 rated combat polymer for flammability
- Heavy-Duty M8x1.25 thread mounted audio plug
- 1000 mAh lithium battery
- 0°C to 50°C operational temperature range
- -40°C to 85°C storage temperature range
- +/- 10,000 Volt ESD protection
- BLE 5.0 Bluetooth Low Energy compatibility
- IP67 rated environmental protection
- dust: max; water: 3ft for 30min

Available in Gimme RED, Combat BLACK, and Royal BLUE. Ask us about current stock levels.

Molded combat polymer UL94 V-0 rated for flammability

Audio plug mounted with heavy-duty M8x1.25 thread mounting

A838 die-cast aluminum anodized alloy
