

vSphere Health Check

vSphere environments are the foundation for many IT infrastructures. With such a dynamic environment, it can be a challenge for the IT department to keep the system in an optimal state, with day-to-day operations taking up most of their time. We will analyze the customer's vSphere environment and provide recommendations and best practice guides to ensure the infrastructure delivers the performance that the underlying hardware supports.

Products included in this offering

- VMware vSphere 7.0 and above

High level project timeline

- 1+ day onsite
- Report within 1 week

Why/Outcome

Our VMware certified expert will assess and analyze your VMware vSphere infrastructure. Based on experience and best practices, the consultant will then deliver a presentation with the findings. A final report with configuration recommendations and current state of the environment will be delivered within 1 week after concluding the on-site assessment.

What

A combination of a manual and automated analysis of the VMware vSphere environment. Manual analysis for up to 1 vCenter Server system, 16 hosts and 2 VMs:

- Log-Analysis: ESXi, vCenter Server
- Configuration-Analysis: ESXi, vCenter Server, Clusters and Cluster Services (HA DRS ...), 2 VMs (virtualization layer)
- Performance-Analysis: ESXi, vCenter Server, 2 VMs (virtualization layer)
- Introduction to ESXtop and key metrics for VMware admins (30 min, 2 participants)
- Detailed report of the current situation, the optimization possibilities and current risks and faults.

Onsite and remote operations

- Introduction and access handover
- Health Analyzer configuration and deployment (App or OVA)
- Manual analysis of the current environment
- Presentation of manual and automated analysis results
- Report generation (offsite) within 7 working days.

Additional services

Additional services can be included, such as more vCenter Server Systems or other VMware solutions, such as:

- vSAN
- Workspace ONE
- NSX

More information

For more information on VMware vSphere visit: www.comdivision.com/cd-products/vmware-vsphere

"The comdivision group – founded in 1996 – provides outcome-oriented IT strategy consulting and implementation support in the DACH region and the USA. The comdivision group was the first partner globally to achieve all eight VMware Master Service Competencies. Most of the architecture and consulting team – including two VMware Certified Design Experts (VCDX) – are also VMware Certified Instructors (VCI), so you have the peace of mind to be taken along through each step of the way, preparing you for successful Day 2 operations. If you need assistance beyond that, ask for our cd:knowledge/cd:credit product, an expert-on-demand service that gives you up to 24/7 access to our specialists."
