Signe Hill*

*Celebrating The Life Of
Signe Hill*

March 1, 1933 - October 1, 2022

March 1, 1933 - October 1, 2022

In Loving Memory Of Signe Sivia Hill

CELEBRATION OF LIFE /OPEN HOUSE

Friday, October 14, 2022 from 5-7 pm

Kane Reception Hall

Signe S. Hill passed peacefully in Sheridan at age 89. She was a loving mother and friend to all who's lives she touched. She was preceded in death by her husband Frank. Signe graduated as her high school class valedictorian; earned a BSN degree from the Univ of Minnesota and earned a Masters of Education from the University of Wisconsin. Her career started as a practicing Registered Nurse (RN) and then as RN instructor in Iowa. She was the first RN social worker in Wisconsin; and then a psych nurse and later an educator/professor of RNs and LPNs in Green Bay, Wis. She finished her career as a public health nurse in northern Minnesota.

Signe was principal co-author of eight nursing text books and a contributing author for Saunders/Elsevier publishing companies and recognized as a distinguished "5 Star Author." Her plain language approach to writing with real world examples allowed readers to quickly enhance their practical nursing skills.

Signe and Frank moved to Sheridan, WY for one last adventure and in the process developed many wonderful friendships in Sheridan and Buffalo. Signe's last professional contribution was collaboration with Peg Callantine on development of the Green House Living project, an alternative elder living facility in Sheridan.

HOLDING TOMORROW PRESENT

My time on earth is through.

I've lived every minute of each day and night to its fullest.

My journey has been filled with wonder, laughter, and sometimes sadness.

But, it has been a great journey just the same.

There are friendships and loved ones which will transcend both time and space.

So to you I say, "Wipe away any tears for tomorrow is just around the corner."

And as that day becomes the present we will hold each other again in warm embrace.
