

Arc bracket for use in a 19-inch rack

The Arc 19-inch Rack Bracket makes attaching the Arc to a 19-inch rack a simple process. By providing an easy way to attach the Arc to a 19-inch rack inside a standard traffic cabinet, it makes Arc configuration both quick and convenient.

- Two screw holes allow for secure cabinet installation
- Phillips pan screws attach to rails inside 19-inch rack
- To avoid any movement of the Arc, the holes on the bracket let you securely anchor the Arc to the bracket
- Ships with pan screws for easy and convenient installation
- Powder coated for longer life
- Bracket is made of sturdy 5052 aluminum that won't bend, warp, or twist when installed
