Welcome to the inaugural ARF Newsletter. With the global pandemic having deeply affected how we are able to communicate and engage with each other, the ARF is keen to facilitate and maintain the exchange of information across a regional and international level. As such, I am delighted to share with you the ARF Newsletter, which features key races, milestones and new developments across ARF members; an in-depth profile of the Jockey Club of Saudi Arabia; updates on the work of the ARF and its committees; and information on the upcoming 39th Asian Racing Conference. I hope that you find the content interesting and beneficial, and welcome your thoughts on how we may improve.

MEMBER UPDATES

BAHRAIN

Bahrain’s strategic move to raise its international profile as a sporting destination has taken a significant step forward with the successful conclusion of the Kingdom’s inaugural Bahrain Turf Series.

The 10-race event, which began on 10 December 2021 and ended on 18 February 2022, offered more than US$700,000 in prize money and attracted significant international participation as well as acclaim from trainers, owners and jockeys.

The Kingdom’s move to open its doors really began in 2019 with the first Bahrain International Trophy, which has been recently upgraded to international Group 3 status. The Kingdom of Bahrain has been promoted to Part II of the Blue Book following approval by the International Federation of Horseracing Authorities (IFHA). The International Grading and Race Planning Advisory Committee (IRPAC), alongside the Asian Pattern Committee (APC), has awarded Listed status to the Al Methaq Cup, His Majesty the King’s Cup and His Royal Highness the Crown Prince’s Cup.

Read more about the Bahrain Turf Series here and the Bahrain International Trophy here.

HONG KONG

Hong Kong racing will offer record total prize money and incentives of HK$1.62 billion across the 2022/23 season with the overall purse bolstered by a record single-season increase of 11.5% (HK$167.2 million) and featuring an exciting range of innovations, including stunning increases in prize money across distance races and a new bonus system.

In announcing this major investment, the Hong Kong Jockey Club has made a clear statement that it is looking beyond the current challenges created by the pandemic and reaffirming its long-term strategy of providing the right incentives structure to reward owners who invest in the high-quality horses that are the foundation of Hong Kong’s world-class racing.

On 15 July 2022, the Turf Authorities of India (TAI) launched the National Combined Totalisator System, and stated that the launch marked “a defining moment in the history of Indian horse racing”, underscoring their belief in the way forward for Indian racing captured by “One Nation – One Tax; One Nation – One Tote”.

Previously, wagering on the tote was operated by individual turf authorities with the dividend dependent on the pool amount that the individual club collected, consequently causing differences between dividends across different centres. The TAI considers that a National Combined Totalisator System will provide various benefits including increased transparency among stakeholders; bringing Indian racing closer to international trends and standards; and providing a more stable and better dividend system for racing patrons, giving a boost to the industry.

It is noted that NorthAlley, a horse racing focused technology company, has been selected as a single totalisator technology partner across all centres for the National Tote Initiative.

Looking ahead, the TAI believes that this development opens up many opportunities for racing in India. This includes the opening of the Indian National Pool for global audience as well as the opportunity to join international pools – such as the UK Tote Pool and the World Pool. All these developments are considered by the TAI to have the potential to make the industry more vibrant, increase participation, and drive more investment and growth.

The 243rd running of the Derby was one of the highlight events of the Platinum Jubilee, celebrating the 70th anniversary of the accession to the throne of Queen Elizabeth II. On this special day, JRA Tokyo Trophy Handicap Stakes, an exchange race between the United Kingdom and Japan, was held as the final race at Epsom. This race commemorates the friendship between the Jockey Club and the Japan Racing Association (JRA) and has been held for nearly 40 years, being established when Tokyo Racecourse and Epsom Downs Racecourse became sister racecourses on the occasion of the 50th running of the Japanese Derby in 1983.

A new International Stable will open at the Tokyo Racecourse in autumn. Horses will be able to enter the stable directly from the airport for quarantine and stay there until the race. Each barn will have a dedicated grass paddock, air conditioning and remote monitoring system, providing a comfortable setting for horses to settle in smoothly and adjust quickly to their new environment. The JRA’s skilled professional team, including a veterinarian and farrier, will also be on-site to offer support throughout the duration of their stay.
MEMBER UPDATES

KOREA

The Korea Racing Authority (KRA), led by CEO Chung Ki-Hwan, held a ceremony to commemorate the 100th anniversary of the KRA at Seoul Park on 19 May in the presence of many domestic and foreign guests.

ARF Chairman, Winfried Engelbrecht-Bresges, also conveyed his best wishes to the KRA through a video-message.

The KRA has set the 100th year of horse racing as a turning point for the institution to take another leap forward to rebuild the domestic horse racing and horse industry and fulfil its social responsibility. Through the new vision, the KRA has expressed its will to overcome challenges and innovate for the future.

MALAYSIA

Mr Clement Chew Kuan Hock was appointed Deputy Chairman of the Selangor Turf Club (SLTC) by the Committee.

He has been SLTC’s representative on the Board of Lembaga Totalisator Malaysia, a regulatory entity under the Ministry of Finance, since 2018.

Mr Chew is presently the Chief Executive Officer of Apex Investment Services Berhad, a unit trust and asset management company licensed by the Securities Commission of Malaysia.

NEW ZEALAND

The board of New Zealand Thoroughbred Racing (NZTR) announced Mr Bruce Sharrock’s appointment as the new CEO.

Sharrock has been in the role of NZTR’s COO and prior to that, a member of NZTR’s Board of Directors, after previously founding and leading his own international business in sports management for more than 20 years.

Sharrock commenced the role as CEO on 4 April, with Bernard Saudry who had undertaken a structured transition with Sharrock and oversaw the completion and implementation of some key industry initiatives before leaving in June 2022.

QATAR

Longines and the IFHA, the co-organiser of the Longines World Racing Awards, announced that the Qatar Prix de l’Arc de Triomphe had once again been named the best race in the world, based on the official rankings. Since the inception of this ceremony in 2015, the Arc has been named the best race in the world five times, notably in 2015, 2017, 2018, 2019 and in 2021.

On the same day, France Galop and sponsors Qatar announced their partnership has been renewed until 2027. The deal covers both the €5 million Arc, which remains Europe’s richest race by a huge margin, as well as the €1m Qatar Arabian World Cup.

The Qatar Racing and Equestrian Club first took over sponsorship of the Arc in 2008 and at the end of an initial five-year contract signed up for a further ten years in 2012, a deal which would have expired after the 101st running of the race this October.

Click here for more information.
30 April was a day to celebrate as the Singapore Turf Club (STC) reopened to the public after two years of racing behind closed doors.

The countdown then began to one of the biggest races at the STC – the S$1 million Kranji Mile (Singapore G1) race on 21 May. Introduced in 2000, the Kranji Mile replaced the Queen Elizabeth II Cup as the first of the three legs of the Singapore Triple Crown series.

In 2018, the Kranji Mile was revamped as an invitational race and no longer held as the first leg of the Singapore Triple Crown series, and since 2020 has been restricted to local horses.

This year’s Kranji Mile winner was 2021 Horse of the Year Lim’s Lightning, making this his fourth Singapore Group 1 win and enhancing his reputation as Singapore’s best horse.

**SOUTH AFRICA**

In May 2021, the Hong Kong Jockey Club, National Horseracing Authorities of Southern Africa and South African Equine Health and Protocols (SAEHP) entered into a funding agreement to support the operations of SAEHP, with the aim to support the restoration of direct export of horses from South Africa, including the successful completion of an audit by the European Union and/or the United Kingdom.

In May 2022, SAEHP received confirmation that the EU audit of the animal health controls in South Africa in relation to the export of equidae from South Africa to Europe is scheduled in October 2022.

This inspection will be critical to any relaxation of rules currently prohibiting shipment of horses directly from South Africa to the EU.

MEMBER UPDATES

TURKEY

The Jockey Club of Turkey has inaugurated the 10th racecourse of Turkey in Antalya, the tourism capital of Turkey, on 19 January 2022.

Antalya racecourse will be hosting some 1,104 horses in 46 stables during two racing seasons a year, from January to April and November to December.

In 2022, a total number of 242 races will take place two days a week, one being an evening raceday, every Wednesday and Friday during the two seasons.

UNITED ARAB EMIRATES

The Emirates Racing Authority (ERA) is pleased to advise that they are launching the “Racing Oscar Awards” to recognise outstanding achievements throughout the Racing Industry in the United Arab Emirates (UAE). The aim is to promote excellence in the industry and to encourage the horse racing community to achieve even greater success.

The event is due to take place in October at a venue to be announced, prior to the start of the 2022/23 season. This will ensure full participation from all award winners and allow for a promotion of the event for the benefit of the entire UAE Racing Industry. Award categories include Champion Trainer, Champion Owner, Champion Jockey and a Lifetime Achievement Award. The awards will also honour pioneers in the industry who have played a pivotal role in developing the country’s equestrian sector and establishing its leading position globally.

In the coming months, the ERA will announce the nominees of each category with the voting process, to determine each winner. The Awards will feature several categories that recognise individuals who have added value to the industry but are rarely in the spotlight, such as media professionals and other unsung heroes.

The “Racing Oscar Awards” will showcase the achievements from the 2021/22 season before the UAE Racing Industry embarks on yet another successful upcoming season.
Organised horse racing in Saudi Arabia began in 1965 when the Equestrian Club of Riyadh was established. The present-day JCSA was founded in 2020 and, under the chairmanship of HRH Prince Bandar Bin Khalid Al Faisal, was charged with building on the momentum established over the preceding years to promote and grow Saudi Arabian horse racing at both international and domestic levels.

The JCSA now follows a long-term strategy that is mandated by Saudi Arabia’s Royal Court. Chief among these aims is to create a world-class, sustainable racing and equestrian industry that has a positive sporting, cultural, and economic impact at the domestic level while promoting Saudi Arabia internationally.

Saudi Arabia is a relatively new racing jurisdiction on the global stage, yet we are pursuing a multi-year and considered strategy to develop the sport, both in terms of our domestic product and our international profile.

- Prince Bandar Bin Khalid Al Faisal, Chairman, The Jockey Club of Saudi Arabia
The Saudi Cup was first held in February 2020 and made an immediate and positive impact on the world stage.

The Equine Hospital was opened in 2019 to support the development of Saudi Arabia’s racing and wider equestrian industry. The JCSA is responsible for implementing integrity and safety rules in Saudi Arabia. In addition, the JCSA has joined the International Forum for the Aftercare of Racehorses, to further develop Saudi Arabia’s horse welfare journey.

The JCSA will focus on achieving further upgrades for races on Saudi Cup day and expand the black type classifications to races during the Riyadh season. The JCSA is also implementing a series of wide-ranging infrastructure development at both King Abdulaziz Racecourse in Riyadh and King Khalid Racecourse at the summer venue of Ta’if.
The General Assembly was convened virtually on 11 April 2022 to connect and engage with ARF Members and ensure that any decisions which require the review of the General Assembly are determined. The General Assembly was well attended by the vast majority of Members, with around 40 delegates participating.

Key highlights include an update on member engagement initiatives since the 38th Asian Racing Conference. The ARF Engagement Plan for 2022 was introduced, which sets out new ways to enhance the profile of ARF Members, share racing news and major developments more effectively, and build upon the ARF’s research output. It was also announced that the 39th Asian Racing Conference would be held on 14 - 19 February 2023 in Melbourne.

## UPDATES FROM ARF

### ARF CHAIRMAN ELECTED AS IHSC PRESIDENT

ARF Chairman Winfried Engelbrecht-Bresges was unanimously elected President of the International Horse Sports Confederation (IHSC) at the organisation’s General Assembly on 22 April 2022. He is the third IHSC President, succeeding Mr Ingmar De Vos who held the position previously, and will hold the office for a two-year term.

The IHSC was created when the Fédération Équitation internationale and the International Federation of Horseracing Authorities joined forces in 2013 to create the first formal vehicle for co-operation between the world’s leading bodies for horse sports.

Read the full press release [here](#).

### ARF EXECUTIVE COUNCIL

Dr Cyrus Poonawalla, Chairman and Managing Director of Poonawalla Group, was nominated as Mr Surender Reddy’s successor to the ARF Executive Council.

For more information about Dr Poonawalla, click [here](#).

### GENERAL ASSEMBLY

The General Assembly was convened virtually on 11 April 2022 to connect and engage with ARF Members and ensure that any decisions which require the review of the General Assembly are determined. The General Assembly was well attended by the vast majority of Members, with around 40 delegates participating.

Key highlights include an update on member engagement initiatives since the 38th Asian Racing Conference. The ARF Engagement Plan for 2022 was introduced, which sets out new ways to enhance the profile of ARF Members, share racing news and major developments more effectively, and build upon the ARF’s research output. It was also announced that the 39th Asian Racing Conference would be held on 14 - 19 February 2023 in Melbourne.
The ARF Council has published its latest landmark report, *The State of Illegal Betting*, offering a most comprehensive insight into the current situation of illegal betting, what this means in relation to legal betting, and what both will look like in the future.

Key findings include:

- **61%** betting websites are either Under-regulated or Unlicensed
- **37%** traffic increase to illegal and legal betting websites from 2019/20 to 2020/21
- **64%** traffic growth during the pandemic in Under-regulated/Unlicensed markets

The report also includes commentaries from ARF Council members on how sports data can fuel illegal betting; the greater negative impacts of illegal betting and gambling-related harm; international and inter-governmental issues around corruption in sport; and notable examples and developments in sports law in relation to illegal betting. The report also includes contributions from INTERPOL and the UNODC regarding their views on the relationship between illegal betting, sports corruption, and organised crime.

The ARF Council hosted two webinars to present the details of the report on 20 and 27 July.

Read the report [here](#) and re-watch the webinars [here](#).

Established in 2017, the ARF Council on Anti-Illegal Betting and Related Financial Crime (ARF Council) aims to foster and enhance international cooperation in order to better combat the threat of illegal betting and other financial crimes to horse racing integrity in particular, and sport in general.

Subscribe to the ARF Council [mailing list](#) for regular updates.
The ARF Drug Control Committee (ARFDCC) comprises a racing regulator, experts in horseracing sample analysis (biochemistry and chemistry) and equine veterinary science (practising and racing regulatory veterinarians) from across the ARF membership.

It publishes, maintains and reviews the list of adopted Asian Screening Limits (ASLs) for controlling a group of common equine medications, to ensure that racing jurisdictions screen therapeutic substances (veterinary drug substances which aid the recovery of the horse) to scientifically agreed sensitivities.

Where necessary or possible, the ARFDCC establishes and publishes Detection Times (DTs) for the use of medications with adopted ASLs, which contribute towards international consistency in medication control policies and administration practices, and guide practising equine veterinarians to provide sensible, correct, and quality treatment for racehorses.

ARFDCC research and results are shared with other horseracing and drug control groups such as the European Horserace Scientific Liaison Committee (EHSLC) and the USA Racing Medication and Testing Consortium (RMTC). Where and when international consensus is achieved between these bodies, such limits and times are discussed with the IFHA Advisory Council on Equine Prohibited Substances and Practices. Globally accepted International Screening Limits (ISLs) can then be established, formalised and applied, in the best interest of the racehorses worldwide.

Dr Schalk de Kock of the National Horseracing Authority of Southern Africa was appointed as the Chair of the ARFDCC on 1 March 2022. Schalk is qualified to a PhD in Biochemistry and has held the position of Laboratory Director in South Africa since 2003. As a Fellow of the Association of Official Racing Chemists (AORC) he was previously a board member of the AORC and chairman of the AORC European section. He was a member of the European Horserace Scientific Liaison Committee (EHSLC, the European equivalent of the ARFDCC) during the period 2003 to 2011. He has been an analyst (chemist) member of the ARFDCC since its 2011 inception.

ARF DRUG CONTROL COMMITTEE
The Asian Pattern Committee (APC) aims to assist in the coordination of programming high quality races within ARF member jurisdictions. The APC is chaired by William Nader of The Hong Kong Jockey Club. The APC ensures quality control measures are in place for its Group and Listed races within the Asian Pattern; and that wherever fair and reasonable circumstances permit, there are more Group 3 races than Group 2 races, more Group 2 races than Group 1 races, and the total number of Group 3 races exceeds the combined number of Group 2 and Group 1 races.

The APC comprises six ARF members - Australia, Hong Kong, Japan, New Zealand, South Africa and the United Arab Emirates - which each have Group 1 races in Part 1 of the International Cataloguing Standards and International Statistics Book (“the Blue Book”). Other ARF members which stage a race with international Group status are regarded as associate members. The Secretariat is provided by the Hong Kong Jockey Club.

The Committee also nominates three members, including one of the co-chairmen, of the World’s Best Racehorse Rankings Executive Committee (WBRREC) which produces the annual World’s Best Racehorse Rankings. The WBRREC is co-chaired by Nigel Gray of the Hong Kong Jockey Club who is also the APC Secretary.

NEW COMMITTEE MEMBER

With 14 years of experience as a handicapper, Mr Uno has been serving as one of JRA’s representative in the international ranking committees, including the LONGINES World’s Best Racehorse Ranking Committee for 13 years.

LONGINES WORLD’S BEST RACEHORSE RANKINGS

The LONGINES World’s Best Racehorse Rankings (LONGINES Rankings) was published on 15 September 2022.

It was a memorable month as both FLIGHTLINE (USA) [139] and BAAEED (GB) [135] achieved historically notable ratings and put distance between themselves and all others in the seventh edition of the LONGINES World’s Best Racehorse Rankings for 2022.

The next edition of the LONGINES World’s Best Racehorse Rankings will be published on 13 October 2022.

Click here for the press release and visit the International Federation of Horseracing Authorities website for the full rankings list and details.

LONGINES WORLD’S BEST RACEHORSE RANKINGS

The Asian Pattern Committee (APC) aims to assist in the coordination of programming high quality races within ARF member jurisdictions.

The APC comprises six ARF members - Australia, Hong Kong, Japan, New Zealand, South Africa and the United Arab Emirates - which each have Group 1 races in Part 1 of the International Cataloguing Standards and International Statistics Book (“the Blue Book”). The WBRREC is co-chaired by Nigel Gray of the Hong Kong Jockey Club who is also the APC Secretary.
The ARF is delighted to announce that registrations are now open for the 39th Asian Racing Conference (ARC) to be held from 14 to 19 February 2023 in Melbourne, Australia.

The conference, themed “Breaking Barriers”, will be an important occasion for all in racing to work together to break down the barriers hindering the advancement of our sport and to capitalise on the many new opportunities in the post-COVID-world.

Please see the First Announcement and promotional video for details. Please visit the 39th ARC website for more information.
