

# deconex® 32 EMULGATOR

**Liquid additif for the emulsification of fatty substances**

For use in laboratory washing machines

## Application

deconex 32 EMULGATOR is used as an additive to acid or alkaline cleaning agents and to emulsify organic residues like greases and oils. It is applied in the pre- and main-rinsing cycle.

## Properties

deconex 32 EMULGATOR is a liquid, neutral, highly active and weakly foaming emulsifier. Moreover, deconex 32 EMUL-

GATOR is like a wetting agent with a foam reducing effect. It leaves a nicely shiny effect on surfaces and it is at 97% biodegradable.

## Ingredients

Surfactant compounds

## Dosage

Rinsing solution	0.5-2 ml/l
------------------	------------

Information:

If possible, add dosage only at a temperature of 40 °C. Please observe the recommendations of the washing machine manufacturer.

## Chemical/physical data

pH	concentrate	approx. 6.5 +/-0.5
Density	concentrate	1.01 g/ml
Appearance	concentrate	clear, colourless liquid

## Availability

Please ask your local representative about current container sizes.

Containers, screw caps and labels are made of recyclable polyethylene.

## Additional information

For information concerning safety at work, storage and waste disposal/effluent, please consult the corresponding safety data sheet.

Take advantage of our vast know-how! Please, contact us for further information regarding your specific application.
