Meet Dorothy

Invention Description:

Describe the whole invention

Novel Feature

Identify a unique aspect of the invention

Ensemble

Query is searched by an ensemble of search models and each result is scored for relevancy

Rerank

Results are compiled, reranked, and sorted by relevance

86%

81%

Results

73%

72%

Returned results are ordered by relevance with the most important references at the top of the list

Intentionator™

The Intentionator re-weights returned results based on the type of invention described in the invention disclosure

Save

Save directly to the platform in client specific projects folders
