## Fund Overview

**Investment Goal:** The Fund seeks long-term capital appreciation.

### Principal Investment Strategies:

The Fund invests in securities that the portfolio management team believes are attractively valued with the potential to exceed investor expectations. Under normal circumstances, the Fund invests at least 80% of its assets in common stocks and other equity securities of small-capitalization U.S. companies. The Fund defines small-capitalization companies as companies whose market capitalizations fall within the range of the Russell 2000<sup>®</sup> Value Index at the time of purchase, and invests primarily in equity securities of small-capitalization value companies as defined by the Russell 2000 Value Index. The market capitalization of the companies in the Fund's portfolio and the Russell 2000 Value Index changes over time; the Fund will not automatically sell or cease to purchase stock of a company it already owns just because the company's market capitalization changes.

## Investment Management

Sub-advised by  
Rothschild & Co Asset Management US Inc.

### Portfolio Managers

#### Tina Jones, CFA

Chief Investment Officer  
25 years of investment experience

#### Joseph Bellantoni, CFA

Managing Director  
23 years of investment experience

19 years of investment experience

#### Eric Fraser, CFA

Director  
12 years of investment experience

#### Bradley Hunnewell, CFA

Director  
11 years of investment experience

### Investment Adviser

Pacific Life Fund Advisors LLC

## Pacific Funds Small-Cap Value offers shareholders:

### A Time-Tested Process

For more than 25 years, the investment team has managed institutional assets using a process rooted in fundamental analysis and designed to identify potential catalysts for a stock's positive relative performance.

### Focused on Expectational Upside

The Fund seeks to outperform its benchmark by investing in a mix of stocks the team believes is attractively valued and should provide a controlled level of risk in down markets.

### Anchored in Style Purity

Stocks whose market capitalization falls within the range of the Russell 2000 Value Index, and are expected to achieve above-average returns relative to the Fund's benchmark over a market cycle, will be selected for the Fund.

	Total Returns (%)			Annualized Total Returns (%)		
	3-Month	YTD	1-Year	3-Year	5-Year	Since Fund Inception 12/31/14
Class A—NAV <sup>1</sup>	29.26	-2.66	-2.66	0.09	6.00	4.34
Class A—MOP <sup>1</sup>	23.79	-6.80	-6.80	-1.35	5.08	3.60
Advisor Class <sup>1</sup>	29.32	-2.30	-2.30	0.35	6.29	4.58
Russell 2000 <sup>®</sup> Value Index <sup>2</sup>	33.36	4.63	4.63	3.72	9.65	6.59

Returns reflect reinvestment of dividends and distributions. Returns shown at net asset value (NAV) have all distributions reinvested. If a sales charge had been deducted, the results would have been lower. Class A and Advisor Class shares inceptioned on 1/11/16. The Fund acquired the assets of the Rothschild U.S. Small-Cap Value Fund (the Predecessor Fund) in a reorganization transaction on 1/11/16. The Fund's objectives (goals), policies, guidelines, and restrictions are substantially the same as those of the Predecessor Fund. The performance figures shown for Class A and Advisor Class shares of the Fund reflect the historical performance of the then-existing Institutional Class shares of the Predecessor Fund for periods prior to 1/11/16. The performance figures for periods prior to 1/11/16 have not been adjusted to reflect fees and expenses of Class A and Advisor Class shares of the Fund, respectively. If these returns had been adjusted, then performance for the share classes could vary from the returns shown based on differences in their fee and expense structures. The Institutional Class shares of the Predecessor Fund commenced operations on 12/31/14.

<sup>1</sup>Class A shares reflect the deduction of an up-front 4.25% sales load. Advisor Class shares are sold at net asset value (NAV) without an initial sales charge and do not include a CDSC. Performance reflects any applicable fee waivers and expense reimbursements. <sup>2</sup>Measures the performance of the large-cap value segment of the U.S. equity universe. It includes those Russell 1000 companies with lower price-to-book ratios and lower expected growth values.

Indexes are unmanaged and cannot be invested in directly. Further, they hold no cash and incur no expenses.

**For performance data current to the most recent month-end, call Pacific Funds at (800) 722-2333 or go to [PacificFunds.com/Performance](http://PacificFunds.com/Performance). Performance data quoted represents past performance, which does not guarantee future results. Current performance may be lower or higher than the performance quoted. The investment return and principal value of an investment will fluctuate so that shares, when redeemed, may be worth more or less than the original cost.**

All share classes may not be available at all firms, and not all investors may be eligible for all share classes.

**The Fund's annual operating expenses shown above are effective 8/1/20 through 7/31/21. Gross Expense Ratio** reflects the total annual operating expenses paid by the Fund. **Net Expense Ratio** reflects waivers, reductions, reimbursements, and the limitation of certain "Other Expenses." Expense caps and/or fee waivers are reevaluated annually. There is no guarantee that the investment adviser will continue to cap expenses after the expiration date. Please see the current prospectus for detailed information.

<sup>1</sup>Excluding negative earnings. <sup>2</sup>Contact your financial advisor.

## Sector Weights (%)

**About Principal Risks:** All investing involves risk, including the possible loss of the principal amount invested. There is no guarantee the Fund will achieve its investment goal. Equity securities tend to go up or down in value, sometimes rapidly and unpredictably. Small-capitalization companies may be more susceptible to liquidity risk and price volatility risk and more vulnerable to economic, market and industry changes than larger, more established companies. Value companies are those that a portfolio manager believes are undervalued and perceived as trading for less than their intrinsic values.
