

Datadog Quickstart Workshop

RapDev has helped multiple customers to adopt the Datadog platform to its fullest extent. Our services range from helping customers get started through a small workshop to multiple-phased deployments, including full-stack observability across APM, Logging and Infrastructure Monitoring.

Our team's tenured experience in the Monitoring and DevOps ecosystem has allowed us to help organizations accelerate their adoption of the Datadog platform, **bringing business and engineering visibility at all levels.**

Datadog Quickstart and Advisory Workshop Includes a two-day on-site workshop, which covers:

- ✓ Assistance on the best practice implementation of the platform
- ✓ Advice on **tagging strategies**
- ✓ Advice on implementation of **APM, Logging or Infrastructure Monitoring**
- ✓ Assistance with building custom checks or agent checks
- ✓ Assistance with using OOTB integrations to third-party platforms such as MS Teams, ServiceNow, PagerDuty and such
- ✓ Advice on setting up Dashboards and Monitors
- ✓ Advice on implementing WatchDog best practices

Also includes:

-  30-day access to the RapDev.io Slack channel for instant responses to any Datadog questions
-  Three-month free trial of the Datadog SNMP Autodiscovery integration

Engagement Timeline:

Day 1-2:

Discovery workshop for AS-IS state, Tagging strategy and Modules overview

Week 1-3:

Assistance with creation of YAML files, Vault keystore manager and Module integrations, provide guidance and best practices

Week 4:

Review of Datadog Monitors and Dashboards with the admin team, provide guidance and best practices

Week 5:

Documentation and handoff to Monitoring admins, run remote office hours to Datadog users across two (2) one-hour sessions

Week 6:

On-going Slack support for Monitoring admins team

What our clients say:

“

The RapDev team is a major part of our success on the Datadog platform. Their knowledge and experience has helped us align our goals and accelerate delivering solutions that are important to us.

-Datto, CIO

“

*RapDev did an amazing job implementing our critical monitoring on Datadog, which has given us much better visibility to our mission critical application landscape. They also did a great job partnering with our team to ensure we had the skills to sustain and build additional capabilities internally. Overall the experience **exceeded my expectations!***

- Director of Production Operations
