

# SERVICE INFORMATION LETTER

## Description

**Battery System, B-777 Series aircraft; Acme Aerospace (V31467 / 6HAR8)**

## 1. Planning Information

### A. Effectivity

This Service Information Letter provides clarification to all B-777 series Operators regarding the aftermarket sales and support of Acme Aerospace's Battery System components installed on all B-777 series aircraft.

Acme Aerospace is the original equipment manufacturer (OEM) of the following Battery System Components:

**Applicable Acme Aerospace Batteries P/N:**

263BA101-1 (Boeing part number S281W202-1) or  
263BA101-2 (Boeing part number S281W202-4)

**Acme Aerospace Battery Chargers P/N:**

263BC101-1 (Boeing part number S281W202-2) or  
263BC101-2 (Boeing part number S281W202-5) or  
263BC101-3

**Serial Number:**

All

### B. Reason

Acme Aerospace remains the OEM for all Battery System components listed in Section A. of this Service Information Letter. All Battery System components listed in Section A. are currently in production and will continue to be in production for the life of the B-777 series aircraft.

All Battery System components referenced in Section A. remain current on all B-777 series Aircraft Maintenance Manuals (AMM's).

Acme Aerospace continues to offer for sale, spares and spare components for all Battery System components and repair and overhaul support for all Battery System components for the life of the B-777 aircraft family.

Acme Aerospace will continue to work closely with and in support of all B-777 series Operators with our existing battery and charger for the life of the B-777 series aircraft.

**263BA101-24-02**

### C. Description

In an effort to eliminate the added cost and complexity of operating mixed fleets of B-777 series aircraft with different battery system configurations; Acme's Battery System components are an interchangeable replacement of any non-Acme Aerospace Battery System components that may be received as installed equipment on B-777 series production aircraft. There are no changes needed to the B-777 series aircraft to install the Acme Aerospace batteries and chargers.

Please contact Acme Aerospace directly in support of our battery and charger replacement.

### E. Approval

All Battery System components referenced in Section A. of this Service Information Letter are qualified on all B-777 series aircraft and remain approved and referenced in all B-777 series AMM's.

All repair maintenance and overhaul of Acme Aerospace Battery System components remain consistent with **CMM 24-31-03, Rev 11**.

### F. Manpower

No provisional changes to the B-777 Series aircraft are needed in the maintenance and installation of Acme Aerospace's Battery System components referenced in Section A.

All repair maintenance and overhaul of Acme Aerospace Battery System components remain consistent with **CMM 24-31-03, Rev 11**.

### G. Material

All material associated with the maintenance and overhaul of Acme Aerospace Battery System components remain consistent with **CMM 24-31-03, Rev 11**.

## 2. Modification Instructions

Acme's Battery System components are an interchangeable replacement of any non-Acme Aerospace Battery System components that may be received as installed equipment on B-777 series production aircraft. There are no changes needed to the B-777 series aircraft to install the Acme Aerospace batteries and chargers.

## 3. Testing

All testing for the Acme Aerospace Battery System components remain consistent with testing per **CMM 24-31-03, Rev 11**.
