HALF MOON BAY
DISTILLERY

CALIFORNIA
HANDCRAFTED

Half Moon Bay Spirits are elegant and refined. Ultra-premium, small batch vodka, distilled and bottled by an artisan craft distillery on the California coast. Gluten free, distilled from 100% organic wheat grain, 750ml bottles.

HMB Gin (SKU 867243000019) is bottled at 90 proof (45% alcohol) and tastes remarkably smooth. We have created a custom blend of 12 botanicals to give HMB Gin its distinctive flavor profile. The intriguing botanical notes are extracted through the gentle process of vapor distillation. This allows all of the individual aromas to shine. In addition to the typical juniper notes, you will discover complex citrus flavors and warm spice components.

HMB Vodka (SKU 867243000002) is distilled from 100% organic wheat grain, it is exceptionally smooth and silky. Bottled at 80 proof (40% alcohol), our vodka is one of the finest examples of true craft distilling.

HMB Lavender Vodka (SKU 8672430000033) is created with local California lavender. Our process of vapor distillation makes the lavender notes fragrant yet still have a subtle flavor profile. Distilled from 100% organic wheat grain it is exceptionally smooth and silky. Bottled at 80 proof (40% alcohol).

Located on the California coast in San Mateo County, our area was said to be the "San Mateo County is the most corrupt county in the state". ([San Mateo County Prohibition Article](#)). From what I can tell, Half Moon Bay Distillery was the first legally established distillery, post-prohibition.

As a female owner in this realm of business, I'd like to say I am the Rose Among the Thorns when it comes to distilling. A primarily male-dominated industry that I have found myself in, breaking stereotypes, assumptions, and the "norm".
