Foundation Plans by Homestead Structural Engineering, LLC, Job No. 18-031, dated September 18, 2019

Tayler O'Dea & David Freund,

As requested, site visits were conducted on November 18 and 19, 2020 to observe the installation of drilled piers for the foundation at the subject site.

**The elements observed were found to be in general compliance with the referenced design documents.**

Please contact our office if additional information is needed on this matter.

Respectfully submitted,

**Cushman Geoscience LLC**
