

CASE STUDY

NO PRICE ON PUBLIC SAFETY

PUYALLUP
TRIBE OF INDIANS

Traditionally, the Puyallup Tribe are fishermen with a culture deeply rooted in family. Today, they are self-sustaining, and their reservation is one of the most urbanized reservations in the country located near Tacoma, Washington. The tribe is governed by the Puyallup Tribal Council, a group that oversees the operations, economics and finances, and community wellness for the tribe. Recently, the council tasked the Puyallup Nation Public Safety Division to increase surveillance and public safety and decrease thefts and incidents at remote events and throughout the reservation.

“The LVT Unit sure works. I can’t believe the difference it makes. It works great in the night and even during the rain.”

- Dennis Young

Public Safety Director, Puyallup Nation Public Safety Division

LIVEVIEW
TECHNOLOGIES

PUYALLUP NATION'S CHALLENGES BEFORE LVT:

- Monitor remote tribal lands
- Augments security teams' abilities
- Increase situational awareness
- Deter theft and vandalism
- Real-time views of events on remote locations
- Mobile security that is easy to take up and down

LVT SOLUTIONS:

- Assess the tribe's situation and needs
- Deploy six D3 Mobile Security Units
- Access to 24/7 monitoring
- Equip units with active deterrence with strobe and flood lights and two-way speakers
- Enable desktop and mobile access to the LVT Platform
- Deploy mobile units which require no hardwire connections to power or internet

RESULTS:

"The unit is noticeable right away and it has done its job immediately."

- Dennis Young
Public Safety Director, Puyallup Nation Public Safety Division

**24/7 SECURITY FOR ONLY 9%
OF THE COST OF TEN FULL-TIME GUARDS**

CREATE A **SECURITY PRESENCE**

"The presence it creates is instant. It's crazy how fast people realize that it's there. It certainly changes behaviors just by its presence."

INCREASED PORTABLE SURVEILLANCE ON REMOTE TRIBAL LANDS DURING EVENTS

"The units take a load off of me. They are easy to move and are doing their job. The portability of the units is great in lieu of staff."

DETER THEFTS, TRESPASSING, & UNWANTED GATHERINGS

"Our administration building is right next to the casino, so we would see a lot of bad. Likewise, at our dock we had parties and homeless people trying to camp, but since we placed a unit there, they have stopped."

AUGMENT SECURITY FORCES

"Each unit is a set of eyes where you can't have your own. The cameras also create situational awareness which is the most important part of this job."

INCREASED PUBLIC SAFETY

"My team has implemented every safety measure that the tribal council will allow because there is no price on public safety."
