CASE STUDY

ANNE ARUNDEL COUNTY

LOCATION: ANNAPOLIS, MD INDUSTRY: LOCAL GOVERNMENT

Anne Arundel County is located in Maryland, USA and is home to Annapolis, the state capital. As the local government seat, the county was tasked with providing 24/7 security at each of its ballot drop boxes during the 2020 elections.

CHALLENGES

- Providing a safe, cost-effective way to monitor ballot boxes
- Last minute planning for security
- Mandatory 24/7 monitoring at 32 locations for 45 days
- No access to local power grid

*“With COVID-19, we had to deal with a lot of factors and adjust on the fly. Having something so versatile and flexible **alleviated a lot of the logistical problems you have to deal with** when you plan for an election.”*

—DAVID GARREIS
