

# Waste Management Policy

- Renaissance recognises the responsibilities of its actions on the environment and aims to reduce the adverse impact of the waste generated from its operations.
- We commit to implement an effective waste-management programme to ensure disposal of waste materials is carried out in an environmentally-responsible manner, while meeting or exceeding the legislative and regulatory requirements.

We shall consistently look at ways to improve our Company's waste-management processes to:

- Reduce unnecessary use of raw materials.
  - Enable waste recycling, composting and energy recovery to assist in reducing landfill waste.
  - Explore possibility of using environment friendly or bio-degradable materials, wherever practical.
  - Segregate waste at source to enable appropriate disposal and recycling.
  - Enhance disposal methods of hazardous waste through implementation of appropriate control measures.
- All members of the Company are encouraged to ensure that the waste they create is dealt with in accordance with this policy.
  - This policy will be reviewed periodically in respect of changing regulations, legislations and new opportunities as they present themselves to the Company.

**Renaissance Services Management will:**

- Ensure awareness trainings are communicated and understood by employees and contractors.

**Stephen R Thomas**  
CEO
