66%

Successful actions / complete

OFFENSIVE 1V1

He places himself on the flanks in order to receive the ball and tries to overcome his rival in an offensive 1v1 duel. He gets rid of them by centralizing the driving of the ball, either to associate or shoot the ball.

INDIVIDUAL TECHNIQUE

He is a winger with good technical gestures to dribble. Also, he makes oriented controls to generate an advantage when receiving the ball. He shows off accuracy to pass short and long, mostly when tries to switch the play.

ATTACKING INTO SPACE

He is aggressive to look for spaces off the ball. He makes diagonal runs in between defensive gaps. When he is placed on the weak side, he gets into the box to support the play.

DEFENSIVE SUPPORT

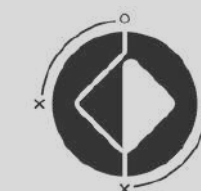

He drops back to support the play and make himself an option to receive the ball on the flank. He plays back and forth to follow up the rival's fullback. He understands how to play defense and avoid any danger in 1v1 duels.
