POSTING

Due to his physical characteristics, he is important to do posting actions. He gives his team calm and time when receiving with his back to the goal. He is also capable of making oriented controls and turns around himself.

AERIAL PLAY

His height (190cm) allows him to be the reference in the box. He is the one in charge of receiving lateral crosses and direct deliveries. He supports in set pieces both offensively and defensively.

MOVEMENTS IN THE BOX

He knows how to get rid of the marker to have better chance in the box. He is able to attack the near post, but also arriving from the back to the far post. He gives numerical superiority with his movements.

PASSING QUALITY

Even though his biotype, he possesses good technical gestures and high quality pass. He is capable of sending through balls to teammates moving into space. He is an ideal player to place his team in his rival half while transitioning into attack.
