63%

Successful actions / complete

OFFENSIVE PHASE

He is a key player in offensive phase. He can show his vision of play making breaking-line passes to assist to score, even if he attacks on the flank or the inside zone. Also, he has finishing technique close to the box.

1V1 OFFENSIVE

He is a talented right-footed player. He has quick movements in small-sided spaces. He is smart to get away from the marker and pass the ball. He can generate association near his zone even under pressure.

INTERPRETATION OF PLAY

He understands when he has to drive the ball forward to attract rivals and generate spaces up front. Sometimes he slows down the action to build-up the play. He does not rush on the ball.

DYNAMISM

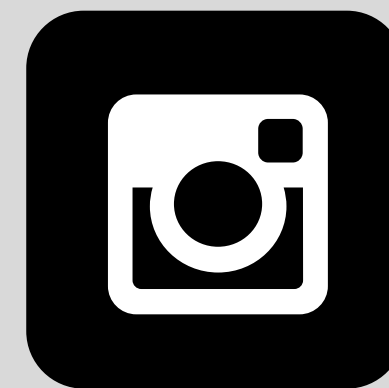

He creates play through his mobility. He passes the ball and shows up into space, on different lanes and attacking areas. He knows how to play one or two touches in order to unbalance the marker.
