POSTING

He is a key player for direct play and posting. He holds the ball and passes after one or two touches with players in front of him. Also, he can keep the possession to take his team forward. He uses his body to protect the ball and avoid anticipations.

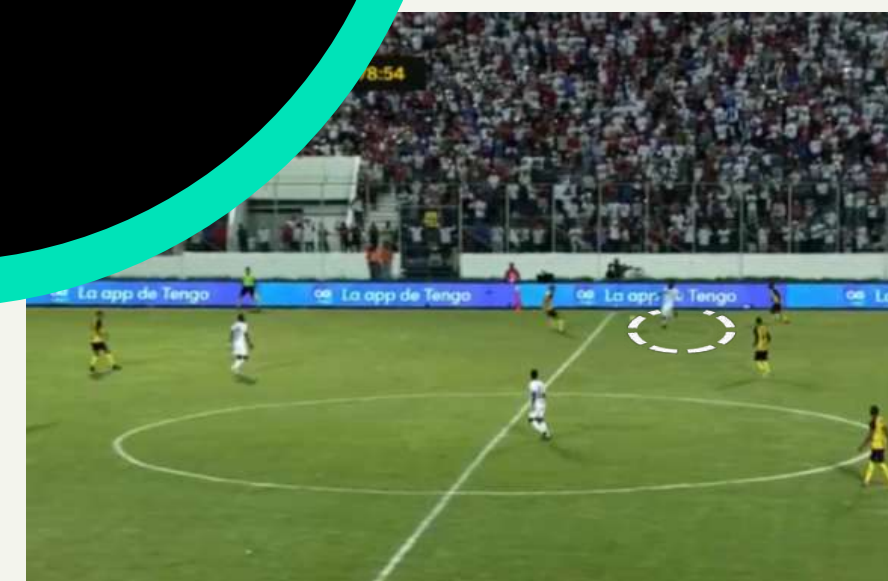

AERIAL DUELS

His biotype makes him an important player for frontal and lateral balls when playing direct. He has a good jump. When the centre-backs send the ball to him, he tries to move in order to get the ball and not to receive statically.

FINISHING

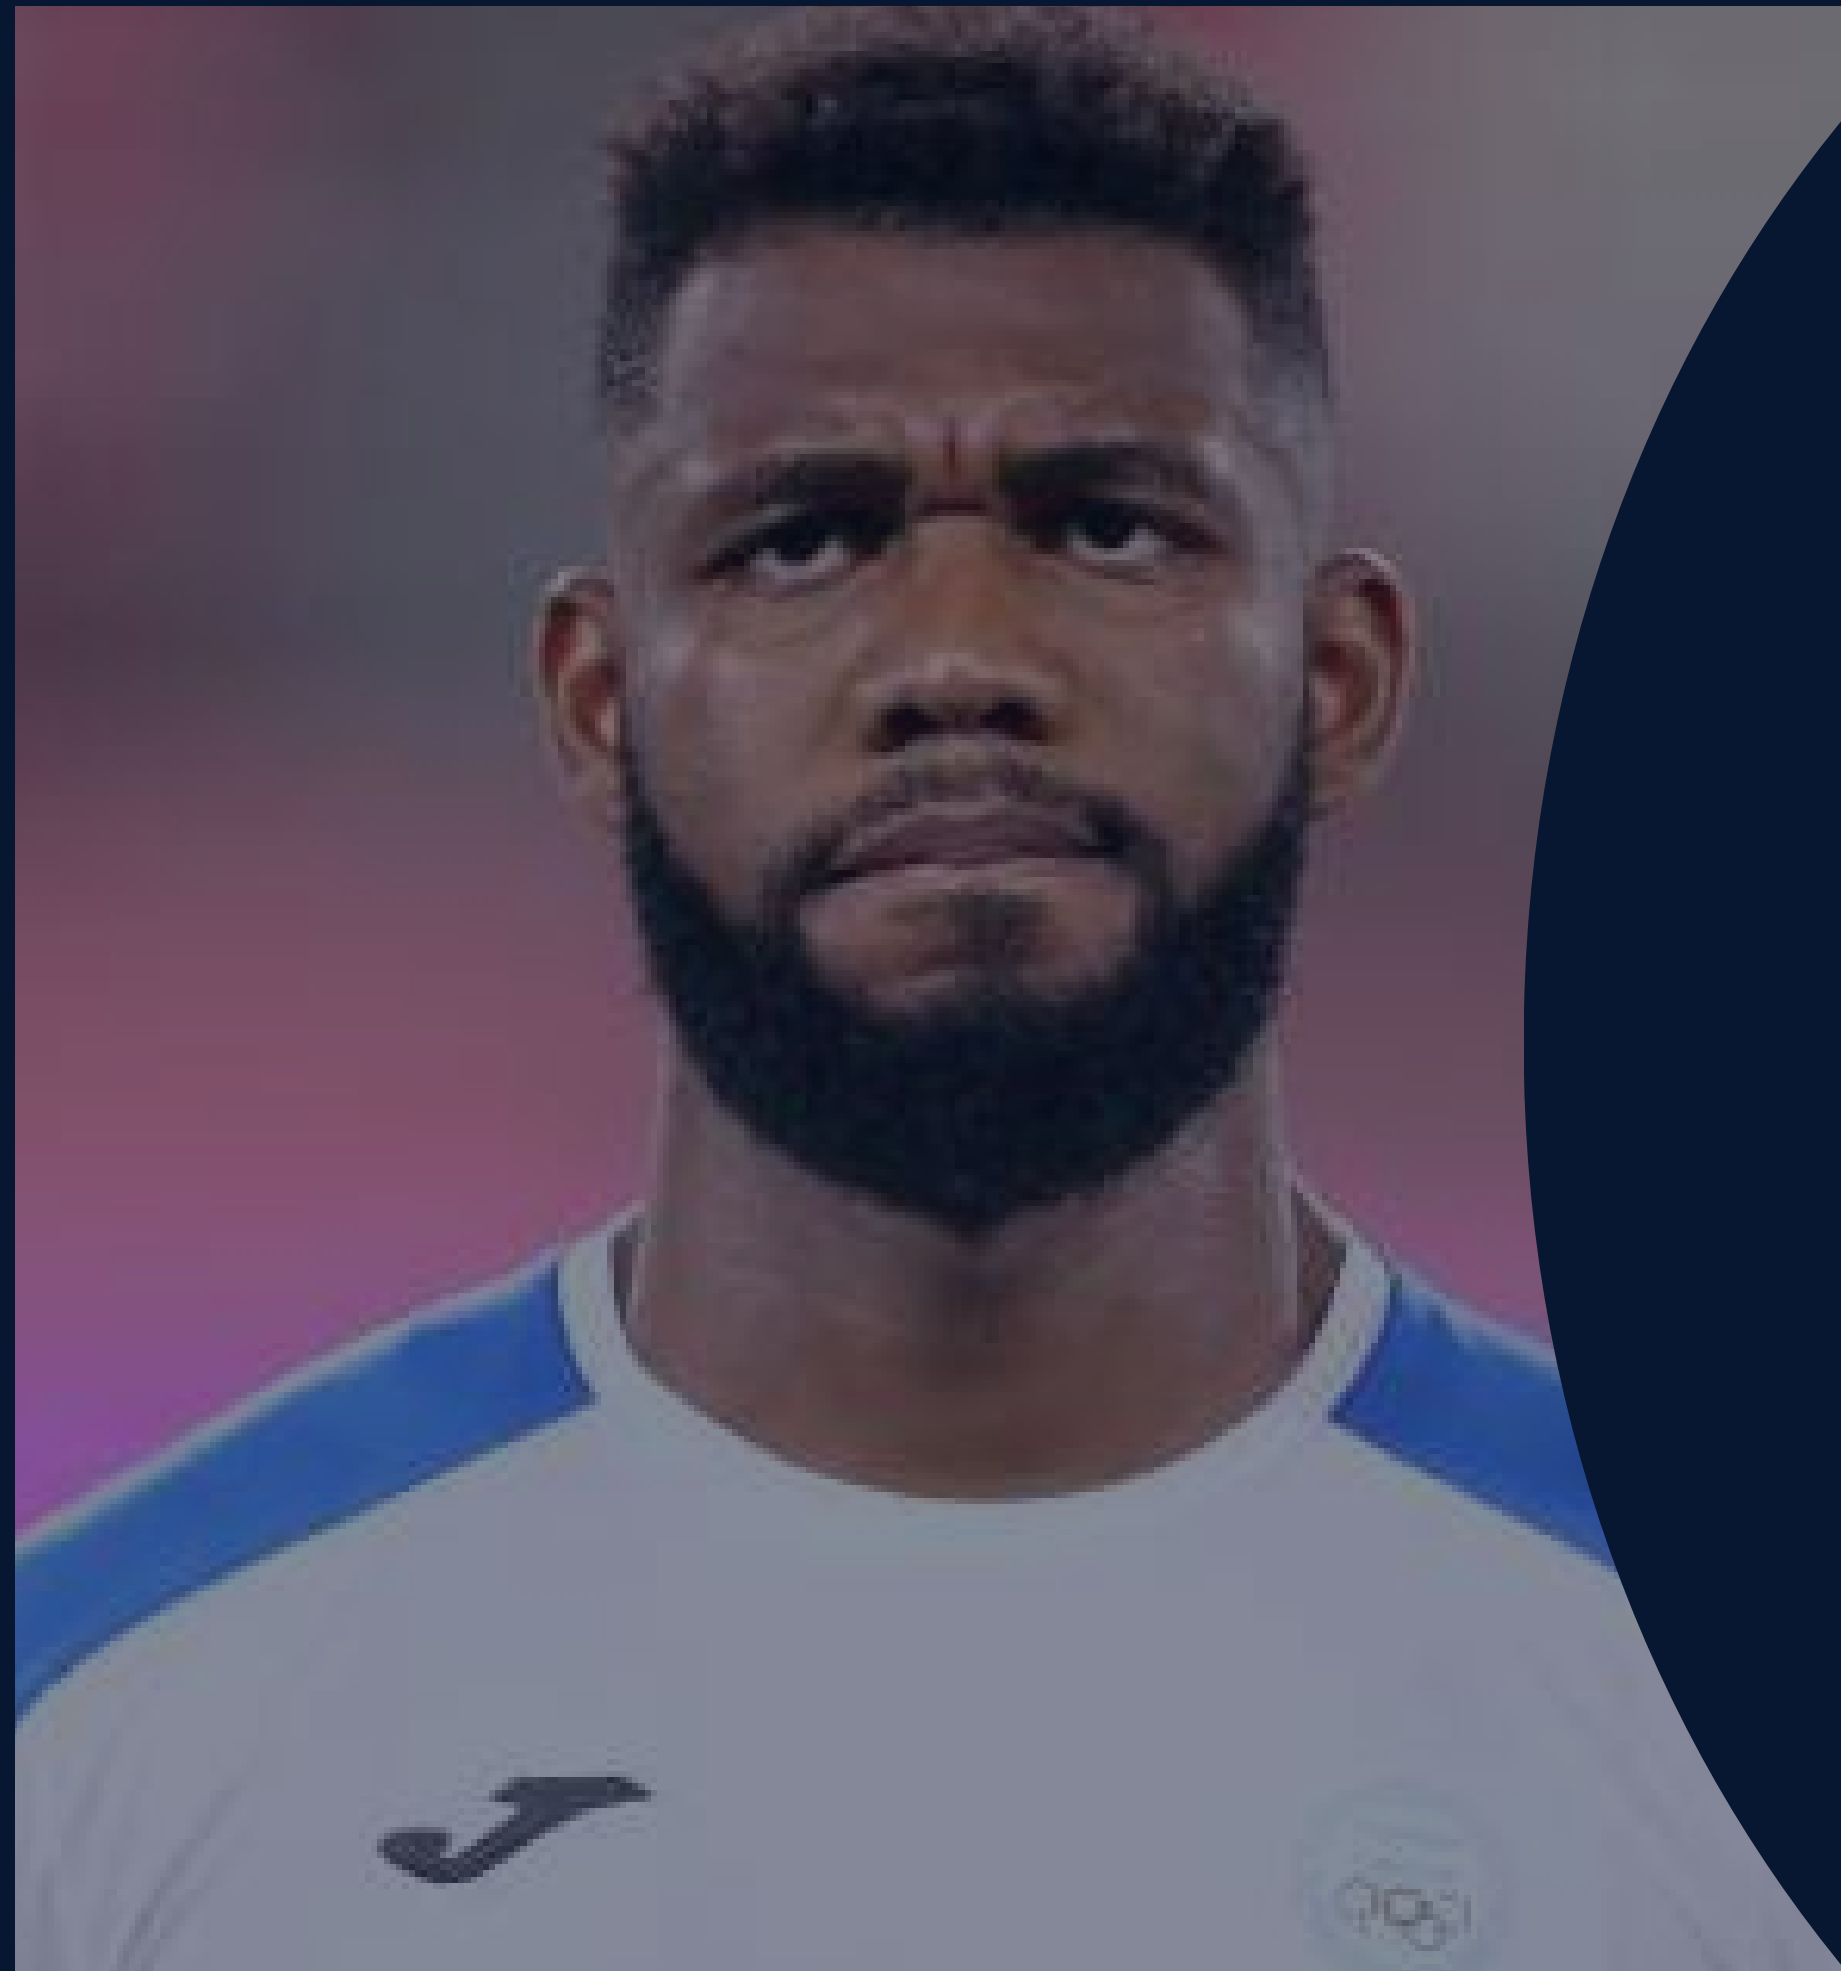

He has great movements with and without the ball. He is a footballer who shoots in every time he has, understanding how important it is finishing the action and creating chances to shoot on target.

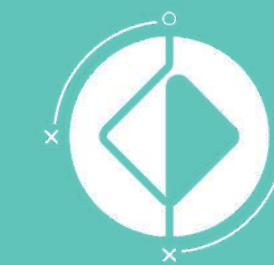

HIGH PRESSING

Bengunche continuously presses high. He sacrifices to apply pressure against the rival's centre-backs. He can press regardless of confronting low or high blocks. He helps press up and forces to send the ball away.

¡EL TORO ENTRE LOS 'KILLERS'!

El delantero del Olimpia, Jorge Benguché, figura entre los máximos goleadores de las ligas de Concacaf en este 2023. Hay otros dos de Honduras en el conteo, el sorpresivo 'pichichi' y centroamericanos sobre mexicanos.

ha sido un proceso lento pero seguro por el que ha transitado Jorge Benguché. Mucho mérito para Pedro Troglia en llevarlo de a poco. Es el mejor delantero del fútbol local. Seguro tendrá revancha en el fútbol internacional. Mientras llega ese momento, constancia y tranquilidad.
