

T-Square 200

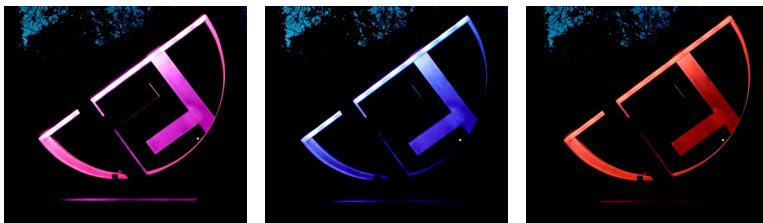

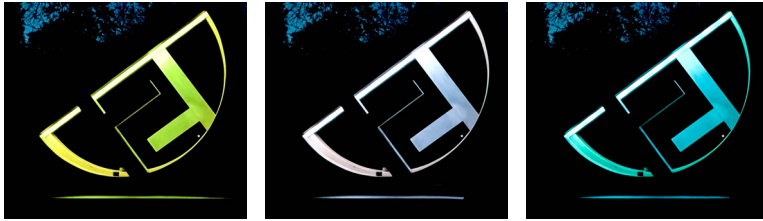

T-Square features laminated Alaskan Cedar arcs, in keeping with our effort to integrate sustainable materials into the work. We abandoned stained glass in favor of a programmable luminous ceiling which bathes the sculpture's interior in unlimited shades of color. The current size is the smallest iteration possible of this design.

T-Square 200, 2019,
Aluminum, laminated cedar,
solar panels, LEDs & other technology,
87 x 46 x 28 inches (Patent D874332)
