

A background graphic consisting of a network of interconnected nodes and lines. The nodes are represented by small circles in various shades of gray and black, connected by thin, light gray lines. Some nodes are larger and more prominent, while others are smaller. The overall effect is a complex, web-like structure that suggests connectivity and data flow.

# **HOW FINANCE & LEGAL TEAMS BENEFIT FROM USING FILMTRACK FINANCIALS**

# Comprehensive financial functionality at your fingertips.

Systems of the past were not designed to handle the challenges surrounding VOD contracts and the resulting flow of revenue distribution. With FilmTrack, media & entertainment businesses can navigate the shifting digital landscape with ease.

Our comprehensive rights management system stores all critical financial and contractual information in one central, secure hub, ensuring that your data is accurate and synchronous at all times. Access important reports and insights via computer or tablet -- at any time, from anywhere.

*Here are some of the ways FilmTrack can bring unprecedented speed and productivity to your finance operation:*

## Royalties

FilmTrack simplifies the royalty management process so you can forget fighting with spreadsheets once and for all.

- Ingest multi-currency royalties
- Auto-calculate your share based on defined royalty definitions
- Track your allocations amongst all vectors to ensure you're paid in a timely manner
- Track consumption against money that has already been received
- Utilize our aging report to determine what invoices have been sent out but have not been paid

## Participations

FilmTrack automatically completes all calculations and double checks for discrepancies, ultimately saving your business time, money, and resources.

- Report revenue participation back to licensor or participant stakeholders
- Define pre- and post-recoupment tiers
- Ingest internal exploitation revenue
- Manage expense cap reductions and reserves

## Advanced Financials

FilmTrack offers the most robust advanced financial capabilities of all rights management vendors in the industry.

- Track what money is owed as well as if anything is late
- Replicate contractual terms
- Review and assess scheduled collection amounts
- Recognize revenue based on the new 2018 rules
- Utilize billing groups to cross-collateralize your projects
- Allocate advances in fees across multiple vectors
- Manage fee calculations for VOD platforms
