

FAMILY GUIDE

EPISODE 103B

LOOK AT ME, LITTLE ME

MAESTRO MOON'S CUES

Do, Re & Mi go to an audition to perform with the Fabulous Flamingos. When Re sings and dances to the song *Look At Me, Little Me* with perfect pitch and a vast range, Re is invited to perform with the Flamingo-gos. However, the practice doesn't go well because Re is so small and is not seen by the other birds. Do and Mi come to Re's aid like the good friends they are. Do's invention of stilts to make Re taller, the Go-Go Gams, don't work very well and the big pink bow Mi offers to help Re stand out but also isn't quite right. Much to everybirdy's delight, Re finally finds her groove by accepting and being herself and not trying to be like anyone else.

What Your Child Will Learn

MUSICAL VOCABULARY

- PITCH** - the highs and lows of sounds
- RANGE** - the distance between the highest and lowest pitches an instrument or voice can sound
- AUDITION** - providing a sample of prepared materials in singing, acting, or dancing

SOCIAL-EMOTIONAL SKILLS

Self-awareness,
Confidence

SING THE SONG, LOOK AT ME, LITTLE ME, TOGETHER IN LOUD VOICES
AND THEN QUIET VOICES.

Play Song Here

LOOK AT ME, LITTLE ME

(Jackie Tohn, David Schuler)

© 2018 Do Re Mi Productions LLC. All Rights Reserved.

RE

Look at me, little me
Too small for anyone to see
That I'm up here on this stage
What a world it would be
To be big or tall or not so small...

FLAMINGOS

But you're perfect how you are!

RE

(spoken rant)

But I'm standing here and I can barely see over your
feathers and it just feels like it's sort of.

FLAMINGOS

It's true!

FLAMINGOS

You talk so fast!

RE

I've got so much to say i need to let it out

FLAMINGOS

We wouldn't change a single thing!

RE

Geez, really?

Thank you for taking me under your wing!

FLAMINGOS

You sing so big!

RE

I don't know how all that sound even fits in there?!

FLAMINGOS

Big sounds can come in tiny packages - packages!
Packages! Packages! Packages!

RE

But what's so special about a little bird like me?

FLAMINGOS

You're the only you!

RE

Look at me! Little me!
Now my voice can reach the ceiling!
What a dream! What a feeling!
Look at me! Little me!
I feel fantastic in my feathers
When we make music all together

FLORA

You can be anything you dream
Anything, anything
We always knew

FLAMINGOS

We always knew

FLORA

You had it in you

RE

I guess I did!
Look at me, little me

MUSICAL FAMILY FUN

FAMILY DANCE PARTY

Practice your unique dance moves in a family dance party. Take turns making song selections to incorporate everyone's personal favorites. Name your new moves and take everyone's dance steps for a spin.

PERFORMING AT THE LIVING ROOM BOWL

Have a family concert and pull out some fun clothes and accessories. Play dress up in each other's clothes and use fashion to highlight your individual flair. Transform your performance into your own version of the Birdie Bowl and put on a concert using paper towel rolls or spoons as microphones.

HIDE AND GO SEEK MY VOICE

Play your own version of Hide and Go Seek My Voice at home. Invite the hiders to hide very well and then use their voices to sing at different pitches, high or low, to try to indicate where they are. The seeker will follow the sounds of the voices they hear to try to find everyone.

THIS IS ME!

This is a fun classic activity that helps your child learn parts of the body. Get out a large piece of paper (or tape paper together) that is the size of your child. Have your child lay on the paper and trace around their body. Next, talk about the parts of the body as your child fills in the outline. Where is your heart? What does it do? Expand the fun by highlighting on the image - what makes your child special...talents, how they are kind, etc.

THE ANIMAL SOUND GUESSING GAME

Animal noises are produced at different pitches and volumes. Think about the high squeak of a mouse and the low growl of a lion. Before getting started, talk about how all animals really sound so different. Then take turns changing your voices to make animal noises so that the others can guess what animals they are.
