COLOUR DIAL CARPET COLLECTION

**MOOOI LAUNCHES THE NEW COLOUR DIAL CARPETS COLLECTION
BY RIVE ROSHAN DURING MILAN DESIGN WEEK 2023**

18 — 21 April 2023

Via S. Gregorio, 29, 20124 Milan

The new Colour Dial Carpets collection are launched by Moooi during Milan Design Week 2023.

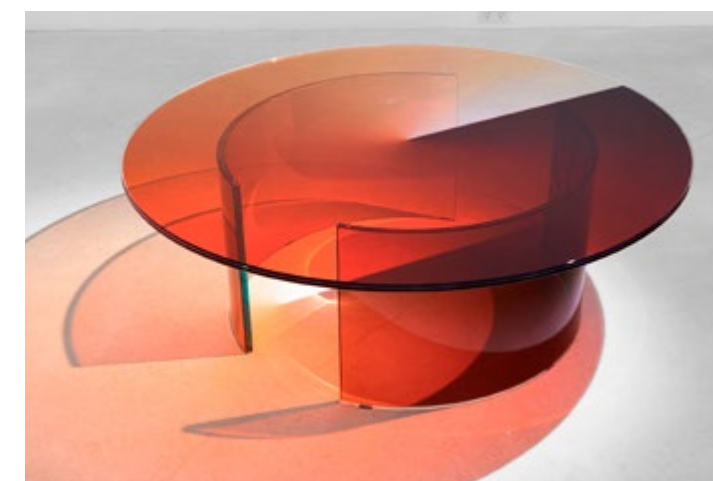

The Colour Dial carpet collection for Moooi Carpets form fields of colour layering, sweeping and blending between tones and shades.

The collection is inspired by Rive Roshan's glass Colour Dial Tables which act as abstract sundials conveying a notion of time through projections of colour on the floor. The carpets are composed of geometric forms creating the Arc, Angular and Round ranges and are layered, sprayed textures and transitioning colours that appear to be almost transparent. The colours of the collection are inspired by colours and effects found in natural materials.

Each carpet shape is available in 6 colourways making it one of the largest collections in the Moooi carpets signature collection range.

About Rive Roshan

Rive Roshan is the artistic practice of Ruben de la Rive Box and Golnar Roshan. The studio creates collectible objects and immersive installations that shift perspectives and capture transience. In their projects Ruben and Golnar translate their shared visual wonder into abstracted material manifestations. Through exploring the interplay of light, colour, space and material, Rive Roshan aims to create sensorial wonder and invoke curiosity towards the hidden magic that surrounds us.

“We feel our role as artists and designers is to offer people a new and inspiring narrative to build a progressive future.”

Rive Roshan's work has been on show at Les Musée des Arts Decoratifs Paris, The Old Selfridges Hotel, Powerhouse Museum Sydney, Shanghai Museum of Glass, Museum JAN with a recent acquisition by National Gallery Victoria.
