

SMARTCAP

SMARTCAP™

SMARTCAP™

Forged in Africa. Made for Planet Earth.

How do you prepare for a month-long Safari, driving your truck and camping with your family in some of South Africa's most extreme off-road destinations? Well, if you happen to be product designer Mike Voss, you design and build a modular truck cap to help you organize gear and create the perfect platform for a rooftop tent with a view.

SmartCap™ was formed out of the rugged terrain of Africa. Every millimeter was built to withstand the twisting and jostling of offroad trails. To be watertight during torrential flash floods and dust-proof over thousands of kilometers driving through the reserves—the African dust seeping into everything it encounters. Everything that is, but the SmartCap.

THE WORLD'S FIRST **MODULAR** TRUCK CAP SYSTEM.

SmartCap is the world's first modular truck cap system. From its 5-piece stainless steel design to its seamlessly integrated Components, the SmartCap lets you build and organize your truck bed exactly how you want it. But that's just where the benefits begin.

Damage a section? Replace it.
If you damage a stainless steel panel, just replace it and voilà! SmartCap is as good as new.

FEATURES

Forged, not sprayed.

Forged from automotive-grade stainless steel, the SmartCap EVO is arguably the strongest truck cap ever designed. It'll hold 150 kgs of gear when moving down the road and a whopping 349 kgs parked while you saw logs in a rooftop tent under the stars.

For men of steel, not fiberglass.

When you build a truck cap out of steel and not fiberglass, you have the confidence it's been built to withstand the daily abuse you'll give it. From off-roading to the job site, SmartCap is one heck of a rugged truck cap.

It's a door and so much more.

The Gullwing Door openings are around 17% taller than the average side window you find on a fiberglass canopy—making it easier to access cargo or bolt in a SmartCap Component.

Push button access.

The design of the low profile latching mechanism seamlessly flows into the SmartCap door and can be opened with just the push of a button. Plus, all six locks are keyed alike for maximum security and easy access.

Rain, snow, freezing temperatures? Bring it!

Our 5-piece design includes an innovative sealing method, that when properly installed, makes the SmartCap weatherproof. So when Mother Nature descends with torrential rains and wind followed by snow and freezing temperatures — your cap will remain watertight and your cargo dry as a bone.

Road-dust, schmo-dust.

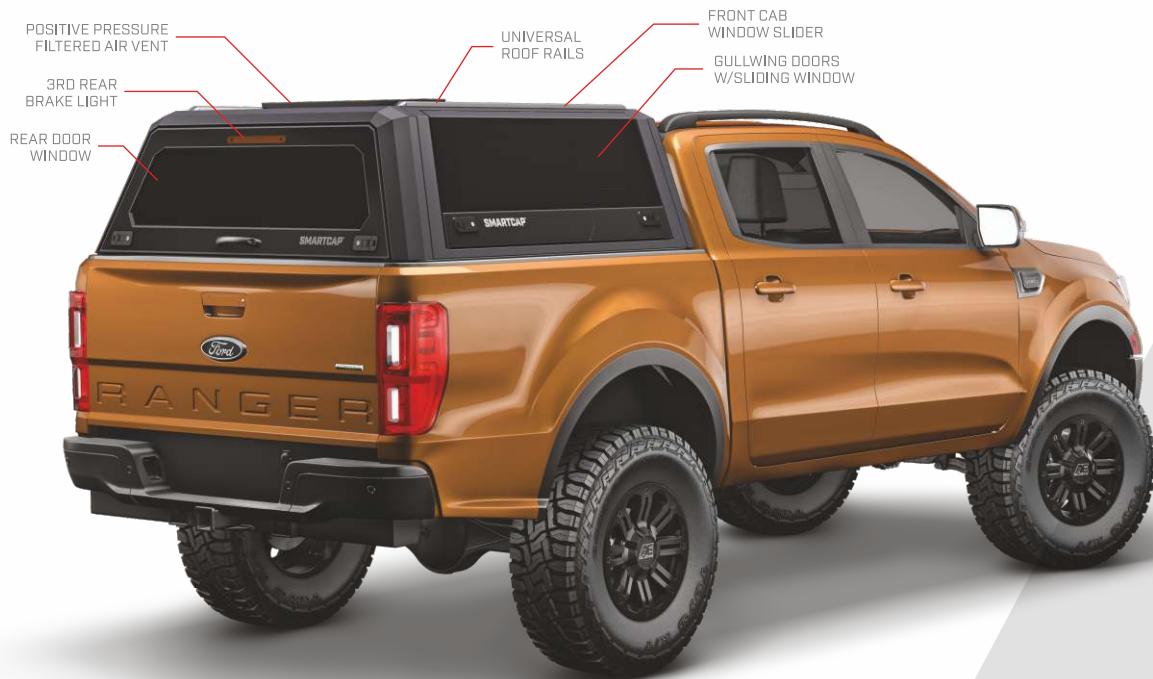

The Positive Pressure Air Vent filters fresh air into the cap at a greater velocity than the enclosed bed is trying to suck it back in. This keeps road dust outside of the bed rather than all over your stuff.

Mount up.

Sleekly designed into the top of the SmartCap, our integrated Roof Rails allow you to utilize other Components for mounting rooftop tents, bikes, kayaks, ladders — you name it. Plus, if you already own a rack system, no problem. Their universal design allows you to mount just about anything.

Built like a truck, not like a boat.

Forged from steel (not fiberglass), it could be said the SmartCap EVO is built like a truck, not a boat. From off-roading to the job site, it'll withstand the daily abuse you give it, while also holding cargo up to 349 kgs static and 150 kgs dynamic.

But this bruiser's more than brawn. From its modern angular design, to the bonded glass Gullwing Doors with low profile push-button latching mechanisms, to the sleek integrated roof rails, the SmartCap EVO enhances the rugged look of your truck.

SMARTCAP EVO SPORT FEATURES

**Put it on. Take it off.
Put it on. Take it...**

The stainless steel SmartCap EVO can be removed in under 15 minutes, giving you the ability to haul taller loads. Then when you're ready to put it back on — snap! It's back on in a jiffy.

Easy access from the cab? Included.

Whether you're parked on the side of a mountain or driving down the interstate, when you need something, you need it. That's why we include a cab slider window as a standard feature on all EVO Sport caps.

Open and shut case.

The flush-mounted sliding window on the Gullwing Doors provides excellent ventilation for the enclosed truck bed. Choose from four lockable positions to achieve your desired airflow. So go ahead, take that second helping of Aunt Betty's Famous Baked Beans, we've got you covered.

Real attention grabber.

The SmartCap incorporates a high mounted third brake light that's a real attention grabber when slamming on the brakes to let Nana and her lil' Tater shuffle across the intersection.

Engineered for extreme adventure.

The SmartCap EVOa Adventure has been built for extreme on-road and off-road use. From its 5-piece modular stainless steel design to the double-walled stainless steel Gullwing doors with interior MOLLE Panels for mounting your gear, this thing will take all the adventure you can throw at it—and then some.

EVOa ADVENTURE FEATURES

Built to take a punch.

When you drive directly into a cavernous pothole on a treacherous outback trail, sending unsecured cargo flying every which way, you'll quickly learn to appreciate the double-walled stainless steel side doors of the EVOa. They're built like a tank and even come with MOLLE Panels for mounting your gear.

Easy access from the cab? Included.

Whether you're parked on the side of a mountain or driving down the interstate, when you need something, you need it. That's why we include a cab slider window as a standard feature on all EVO Sport caps.

Commercial grade — modular design.

When South African telecom companies first saw the SmartCap EVOc, they knew they'd found the ideal solution to never having to fix damaged fiberglass again — and for good reason. Not only did it solve the fiberglass problem, but when one of their SmartCap panels incurred any damage, in under an hour, they could swap it out — back on the road, good as new.

Manufactured out of automotive-grade stainless steel, the EVOc is a brilliantly engineered commercial truck bed cap system. The steel side doors with the optional Security Screen that installs in the rear window, provide incredible security for your truck bed. Plus, outfit your EVOc with our SmartCap Components to build the ultimate commercial truck based on your cargo management needs.

EVOc COMMERCIAL FEATURES

Protection when you need it — easy access when you don't.

The stainless steel side doors on the EVOc are incredibly secure. Plus, the low profile latching mechanisms and heavy-duty gas struts enable you to open the door with just one finger.

Build it how you want it.

SmartCap Components allow you to build the ultimate commercial truck. From a Drawer-Bin to the Half-Bin or Full-Bin, Load Bars, Roller Rack, and more — organize your commercial truck bed exactly how you want it.

Safe and secure.

When combined with the stainless steel doors, the optional Rear Window Security Screen adds another layer of protection for your SmartCap EVOc.

Real attention grabber.

Safe and secure.

When combined with the stainless steel doors, the optional Rear Window Security Screen adds another layer of protection for your SmartCap LC.

From off-road to on the farm, the SmartCap LC is the perfect way to top off your Land Cruiser. Built out of stainless steel, the SmartCap earns its scars the same way your truck does—one rugged adventure after another. The Gullwing door openings are incredibly large, letting you access cargo with ease or install a SmartCap Component. Best of all, integrated universal roof rails let you mount accessories like roof racks or a rooftop tent.

Think of it as the fort knox of canopies.

Sometimes the road in front of you demands an extra level of protection. That's why we constructed the SmartCap EV0d almost entirely out of Stainless Steel. From the Gullwing side doors, the rear door, or the front flange, the EV0d is built to defend your truck and cargo from just about whatever comes its way.

ALL STAINLESS SIDES. ALL DAY LONG.

Built for hauling hay or surviving the apocalypse. Your choice.

Peering through heat waves coming up from the African plains, you see it — a rugged-looking truck with a SmartCap Bed Replacement System. Like something out of Mad Max, the off-road truck sports a Flat Bed with a SmartCapXL sitting atop. Spare tires, jerry cans, an ax, and shovel attached. His message, fully received. “Bring on the apocalypse Buddy Boy—I’m 100% ready!”

The Flat Bed is built to take heavy-duty abuse while still delivering the ultimate in truck bed organization. From the frame up, its design maximizes space with a drawer and bins for containing your stuff. Combined with the SmartCapXL it can also deliver a whopping 2.1 cubic meters of watertight, dust-free, fully enclosed storage. Add to that its seamless compatibility with our SmartComponents, and you have truck bed nirvana.

FEATURES:

Maximize your bed from the frame up.

Designed to maximize the space around the frame and tires, the Flat Bed comes with built-in bins and a heavy-duty telescopic sliding drawer that can handle heavy loads.

Get to it.

One of the largest caps ever constructed for a light-duty truck, the SmartCapXL provides 2.1 cubic meters for a mid-size truck. Plus, the large side doors let you access the entire tray from either side.

Hang it and go.

The back wall of the SmartCapXL includes universal brackets for mounting spare tires, jerry cans, ladders, shovels, etc. If it can be mounted, just hang it and go.

Mount up.

Sleekly designed into the top of the SmartCapXL, our integrated Roof Rails allow you to utilize other SmartCap Components for mounting rooftop tents, bikes, kayaks, ladders — you name it. Plus, if you already own a rack system, no problem, the universal design allows you to mount just about anything.

SMARTCAP™

**Build it how you want it.
Build it how you need it.**

SmartCap Components let you organize your truck bed to fit your life. How about a Camp Kitchen in one Gullwing Door for pasta bolognese under the shadow of Lion's Head and a Drawer-Bin in the other to keep your tools organized. Whatever you're into, build your truck bed exactly how you want it.

The smart way to build a bed.

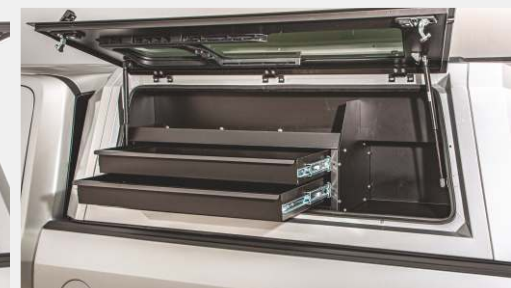

Camp Kitchen : Camp stove, cutting board and secure storage for the included dishes, cookware, spices, etc.

Full-Bin : Fills the entire side opening and provides Molle plates to secure cargo.

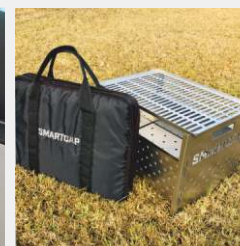

Half-Bin : Fills half of the opening—leaving the other half to access your bed and cargo. **Drawer-Bin :** Organize and safely store tools and equipment.

SECURITY SCREEN

TORCH

SMARTCAP FLAME

STOW AWAY TABLE

Security Screen (EVOc): Adds another layer of rear window protection for your SmartCap EVOc. **Torch:** The powerful rechargeable LED Torch, magnetically mounts to put light right where you need it. **SmartCap Flame:** Stainless steel flatpack BBQ is both a portable grill and a fire pit. **Stow Away Table:** Stainless steel construction. Includes a mounting bracket for storing the table on the interior roof of a SmartCap.

ROLLER RACK

LOAD BARS

DROP RACK

PLATFORM RACK

Roller Rack: Heavy-duty roof rack with rollers and ample tie-downs to secure your load. **Load Bars:** Great for mounting tents, bikes, ladders, etc. **Drop Rack:** Drop down roof rack makes loading and unloading of cargo a snap. **Platform Rack:** Creates a large surface and ample mounting points to secure cargo.
