

NEW!

RapidCardRx

*Multi-Med, Single Dose, Pre-Pack Adherence Blister Card
Packager with Universal Cartridges for any Pharmacy*

No more calibrated cassettes.

Experience the unparalleled, adherence packaging automation technology of the RapidCardRx™ with built-in vision inspection. The RapidCardRx is configurable to fill any blister card format, single or multi-med, using up to 40 “smart” bulk-loaded universal cartridges that simultaneously dispense all oral solid medications such as gel caps, half tabs, new generics, etc. – **without calibration**. Run up to a 31-day med cycle at the lowest possible cost. No “pill-at-a-time” loading. Plus, no more errors from hand filling trays or cards.

Our unique, integrated machine vision verification system enables one-pass workflow, unmatched accuracy, and significantly lower operating cost. No need to stock expensive inventory in your automation system. There’s less inventory cost, less expiration waste, and fewer refills during a run. Cleaning is far less time consuming. More things get done in less time, greatly enhancing pharmacy efficiency.

RapidCardRx has the lowest daily operating costs in the industry.

- All-in-one design with row-at-a-time or blister-at-a-time filling
- Most advanced features industrywide, made in the USA
- Unmatched speed, flexibility, and accuracy
- Up to 5 single-med cards/min.
- Runs up to 40 “smart” bulk-loaded, universal cartridges simultaneously—dispense all oral solid medications (including gel caps, half tabs, new generics, etc.)
- No more hand filling trays or cards pill-at-a-time
- Medication machine vision verification system—one-pass workflow
- Works with all popular cold seal cards with up to 32 cavities
- Runs least expensive consumables
- Far less labor
- No finished card rework
- Smallest footprint (33” wide x 18” deep x 60” or 72” or 84” high)
- Less on-hand inventory required
- Intelligent software interfaces with all popular host PMS systems, or operates autonomously

Specifications for RapidCardRx™ System

- Dimensions W=33" L=18" H=60", 72", 84"
- Weight 250 lbs.
- Dispensing Capacity Up to 40 new "smart" bulk-loaded universal cartridges (for any size pill)
- Card Fill Rate Up to 5 single-med cold seal cards/min.
- Communications Ethernet connection to pharmacy management software
- Internal Temperature/Humidity Same as pharmacy space
- Internal Cleanliness Easiest cleaning in the industry
- Equipment Packager includes: Built-in controller, power supplies, up to 40 "smart" bulk-loaded universal cartridges with 40 built-in vision inspection systems
- Workstation PC, monitor, biometric fingerprint reader, keyboard, mouse, "smart" filling station with built-in count and vision verification
- Verification Unique integrated machine vision verification system for cartridge filling and cartridge dispensing
- Software Proprietary RxSafe software and firmware

Specifications for RxSafe Controller (built-in)

- Computer Industrial quality with 2x256GB solid state hard drives
- Operating System Microsoft Windows 10 Professional, 64-bit
- Database Microsoft SQL Server
- Power 110 volt A/C, 15 amp

RapidCardRx Field Performance Data

- Cost Reduction
 - Far less cleaning & maintenance = less down time
 - Fastest fill rate in the industry
 - Lowest cost consumables in the industry
 - Utilizes RxSafe's newly patented "smart" bulk-loaded universal cartridges
 - No "exceptions tray" or tray filling station
 - No "pill-at-a-time" loading
 - Smallest footprint, easiest to use

Custom Pharmacy Layout Services

- Workflow Optimization Integrates RxSafe systems' automation into existing pharmacy space
