## SUBMITTAL LETTER

To: Sample Customer Submittal Letter  
Re: GPRS FINDINGS REPORT  
123 Main Street Columbus, OH 43004

**Thank you for choosing GPRS to  
Intelligently Visualize The Built World™ for you.**

Access, visualize, interact with, and share all your geolocated and cross-referenced utility data via SiteMap®, powered by GPRS.

Access your PDFs, KMZ files, and links to any other site data GPRS has provided for you.

Please let me know if you have any questions, concerns, or additional requests. I look forward to working with you again soon.

Thank you!

Evan Soto

P.S. Questions about SiteMap? Contact [SiteMap Support](#) to learn more!

Our Mapping & Modeling Team can provide CAD drawings and can use your existing drawings as background linework for our files. If CAD is already part of your order, it will be delivered as a separate submittal in the next few days. If you have not yet requested CAD and would like to add it, let us know so we can provide you with a quote to add it to your job by replying to this email or giving me a call.

NOTE: GPRS does not provide surveying or engineering services. All data provided is at mapping quality for general reference only. We utilize GNSS/GPS locators, certified for sub-meter accuracy, and locations were attained by our Project Managers who are not professional surveyors. Some of the documents we provide have embedded location and elevation data that should be used at your own risk due to accuracy limitations listed above. If survey and design-level accuracy are needed, you will need to hire a surveyor licensed in your state to pick up field markings and provide you with that data, separate from GPRS.

This letter is subject to our Terms and Conditions which are listed and incorporated by reference here: <https://gp-radar.com/terms-conditions>
