

When you host your event at Glass Manor, we are pleased to offer you beautiful antique dining tables, with a perfect blend of antique and Mennonite crafted chairs, for your event, included in our rental fee.

These special tables bring feelings of tradition, warmth and togetherness. We often reflect on how many people have shared a meal, or special moment, a meeting of local business men and women, or afternoon teas and church socials.

One of these very special tables was used by Mr. Rueben Glass and his family, in the early 1900's in the home that he built for his family, here on our four acre estate property. When all six leaves are installed, this table is 10' in length. It was perfect for his large family of four children and his wife, Mrs. Dickson Rueben.

A 'perk' of these tables is that they can be used at their full extension, or reduced to a more intimate size, custom tailored for your use. Please find below a guide to their dimensions.
