Related Policies:	Heritage Playgrounds Public Toilets
Applicable to Unit(s):	Whole Organisation
Responsible Officer:	Manager Natural Environment and Parks Coordinator Open Space Planning & Support Coordinator Parks Services
Statutory Reference:	Nil

OVERVIEW

To establish policy for the management of open space under Council jurisdiction.

THE POLICY

Council will maintain Public Open Space under Council jurisdiction according to the following Guiding Principles.

Guiding Principles

Diversity, quality and design

- Open space should be designed to build on local character and provide a diverse range of attractive settings and opportunities for recreation and leisure.
- Site plans (Concept or Masterplans) should be prepared before undertaking major development works.
- Design, layout, and facilities should be of high quality and provide for safe and enjoyable use.
- Design standards should be in line with those stated in the Wellington Open Space Plan 2014-2024.
- Urban Forest management including tree planting for shade, amenity and biodiversity enhancement should have a high priority in all council and private sector developments.

Access and equity

- All developed open space should provide good access to facilities, settings and activities for the whole community including people with limited mobility and other disabilities, and parking where compatible with established site values and uses as per the Open Space Plan assessment.
- The location and opportunities available at major sites and the benefits of open space use should be widely promoted.

Management and maintenance

- Maintenance should meet community and conservation objectives, within budget constraints and in accordance with agreed priorities.
- The community should be involved in the planning, development and care of open space.

Conservation

- Significant natural and cultural sites should be identified and actively managed including protection from damage by inappropriate management or recreation activities.
- Locally indigenous species should be prioritised in planting projects, except where exotic tree and plant species are an important element in urban or cultural landscapes.
- As part of a broader approach to climate adaptation the enhancement of urban biodiversity through the addition of green infrastructure is considered a high value activity

Council has developed guidelines (e.g. Open Space Plan) to give effect to its policy position on open space. These guidelines are available to staff via the Intranet. The responsibility to ensure that the implementation and maintenance of the guidelines accords with Council's policy position is vested in the Manager Natural Environment and Parks. Any matter specifically requiring a Council determination shall be reported by the General Manager Built & Natural Environment.

HUMAN RIGHTS

Wellington Shire Council is committed to upholding the Human Rights principles as outlined in the *Charter of Human Rights and Responsibilities Act 2006 (Vic)* and referred to in Council's Human Rights Policy. The Human Rights Checklist has been completed and this policy accords with Council's policy commitment to uphold human rights principles.
