

WELLINGTON
SHIRE COUNCIL
The Heart of Gippsland

Council Approved Names Register

March 2022

Council must act in accordance with the guidelines provided for under the *Geographical Place Names Act 1998*. Council has established the Place Names Committee to act as an advisory body on geographical place names issues.

Developers and the general public are welcome to submit place/road naming proposals to Council (via the Place Names Committee) for consideration. The following guidelines, based on the *Naming rules for places in Victoria* (Department of Environment, Land, Water and Planning), apply to these proposals:

Language

- Geographic names, except when they are proper nouns, must be written in standard Australian English or a recognised format of an Australian Indigenous language local to the area of the feature, locality or road.
- Geographic names should be easy to pronounce, spell and write, and preferably not exceed three words (including feature or road type) and/or 25 characters.
- Diacritical marks (symbols such as ´, ¸ or ˘) will be omitted from names drawn from languages that use such marks.
- An apostrophe must be deleted from geographic names written with a final 's, and the possessives should not be included.
- Abbreviations, e.g. Mt in place of Mount, are not allowed. An exception applies to the use of the honorific Saint.
- Names starting with Mc or Mac must not have a space included between the Mc or Mac and the rest of the name.
- Hyphens can be used within place names that indicate the extent of the feature, as well as when the name incorporates a hyphenated surname.
- 'The' is not a suitable prefix in naming of any road, feature or locality e.g. The Avenue is not acceptable.
- A name cannot be a numeric value e.g. 9 Mile Creek. Nine Mile Creek would be allowed.

Linking the name to the place

Names should have a connection with the area, with preference given to unofficial names used by the local community. This could relate to things such as indigenous culture and occupation of the land, local flora and fauna, Australian war contributions, European exploration and settlement, local geography and geology, significant events, the cultural diversity of past and current inhabitants or patterns of land usage and industrial/mineral/agricultural production.

Commemorative names

Naming often commemorates an event, person or place. The names of people who are still alive should be avoided because community attitudes and opinions can change over time.

Where the names of deceased persons are being considered for naming of a road, place or feature, the person being commemorated should have been held in strong regard by the

community, have had a direct and relevant long-term association with the area (50 years +) and have made a significant contribution to the area or region.

A commemorative name applied to a locality or road should use only the surname of a person, not a first or given names. A commemorative name applied to a feature can use the first name and surname of a person, although it is preferred that only the surname is used. The initials of a given name are not to be used in any instances.

Commercial and business names

Naming authorities should not name places after commercial businesses, trade names, estate names or non- profit organisations.

Non-discriminatory names

Place names must not discriminate on the basis of race, ethnicity, religion, disability, sexuality or gender.

Recognition and use of Indigenous Australian names

The use of traditional Indigenous Australian names is encouraged for features, localities and roads, subject to agreement from the relevant Traditional Owner group.

Duplication

Proposed names must not be duplicated. Duplicates are considered to be two (or more) names within close proximity, and those which are identical or have similar spelling or pronunciation. Duplication is not allowed within the following distances:

- Metropolitan urban area, within 5 kilometres;
- Regional urban area, within 15 kilometres;
- Rural or remote area, within 30 kilometres.

An exception to this principle is the assignment of multiple feature names within, for example, a park or reserve. The feature names must have a direct relationship with each other.

Road Naming

There are many legacy names that would not be allowed now. The following criteria must be applied to proposed road names:

- All roads must have a road type assigned that suitably describes the road's characteristics.
- Use of the definite article 'the' is not acceptable for sole use as a road name (e.g. *The Avenue*).
- Road types are not to be used in the formation of a road name, for example Back Street Road or Boulevard Street.
- The use of numerals is not acceptable for a road name, either in full alphabetised or numeric format (i.e. neither Four, Fourth, 4 nor 4th are acceptable). This is because of the possible confusion between the road name and the address number.
- A prefixed or suffixed extension of the name e.g. upper, lower, little, old or new and

the cardinal directions north, south, east and west, are not to be used as part of a road name. The only exceptions are:

- when the name is derived from a local feature such as 'little hut' or 'old gum';
- when the name is derived from a locality name that uses a cardinal direction.
- Destination-to-destination names, e.g. Melbourne–Geelong Road, are not acceptable. This is because there are too many possible aliases available (i.e. Melbourne Road, Geelong Road, Geelong–Melbourne Road and perhaps even a local name such as High Street where the road runs through a township); therefore, a single name is preferred.
- Hyphens and the word 'and' are not to be used.
- Bridges will be named for identification purposes only and signage will only be installed on newly (re)constructed bridges to indicate the name of the waterway.

The *Naming Rules for Places in Victoria* provides further detail on naming conventions and can be found at <https://www.propertyandlandtitles.vic.gov.au/naming-places-features-and-roads/naming-rules-for-places-in-victoria>

General enquiries on geographical place naming issues may be directed to Sale Civic Centre on 1300 366 244 or PlaceNames@wellington.vic.gov.au.

A developer may select any name from the Register for their subdivision for the purposes of certification, without having to seek approval from the Place Names Committee and Council, provided that the selected name is to be used within the locality specified on the Register and meets the duplication criteria. Locality-centric names should be given priority over names applicable to the broader Wellington Shire. When a name is selected the developer must notify the Place Names Committee to enable the name to be reserved.

When a name selected from the Register is either applicable to the whole of Wellington Shire or intended to be used outside of the locality specified, the selected name is to be referred to the Place Names Committee and then presented to Council for consideration.

Locality where name may be utilised	Council Approved Name	Notes	Date approved by Council
Wellington Shire	Anson	Aircraft model (Avro Anson) suggested by RAAF Base East Sale to mark the centenary of the RAAF. Use of name subject to meeting duplicate name criteria.	15-Mar-22
