Required documentation to support your decommission of an Onsite Wastewater Management System:

- ☐ Copy of receipt of pump out from your contractor
- ☐ Copy of receipt of works or Plumbing Industry Commission Certificate of Compliance from your plumber

Please note: Any proposal to reuse or maintain any component of your septic tank system requires the approval of the Wellington Shire Council Environmental Health Unit.

All works must comply with EPA code of Practice Onsite Wastewater Management Publication No 891 and Wellington Shire Council Environmental Health Unit requirements.
