

Swoop

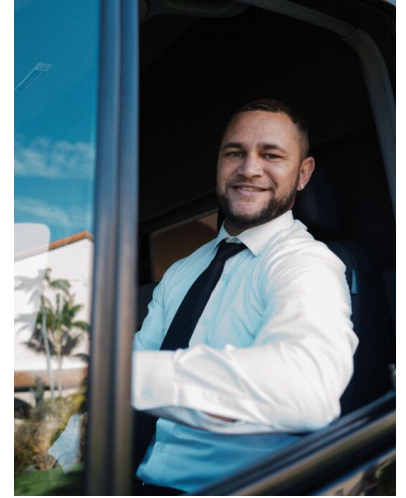

Swoop for Business

Overview

Swoop's mission is to improve the way people live and work by providing better commute solutions for companies, municipalities universities & private institutions.

The Swoop shuttling program makes commutes as convenient, reliable and safe for riders as possible.

Current Challenges for Businesses

Swoop understands issues businesses face in their daily transportation programs.

Poor Utilization

25% of time spent on inefficient planning leading to wasted capital on excess shuttles.

Limited Data Collection

No ability to collect relevant ridership data to effectively find a solution that works.

Horrible Employee Experience

Inconvenient and inconsistency for employees on daily basis.

Multiple Follow-up Calls

Ad-hoc, unnecessary phone calls to different transportation companies due to inconsistency

Cumbersome Reconciliation

~7+ hours spent on reconciling invoices at month/quarter end.

Back to Work vs. Hybrid

No provider offers flexibility of back to work commute solutions.

Why Swoop for Business?

Efficiency

With Swoop's technology, we're able to optimize on time, route distances, and cost.

Transparency & Safety

Transparent reporting, monitoring and invoicing. Full visibility on employees data and all ride details.

Automation

Full digitized experience directly from the management dashboard and ability to scale up/scale down vehicles - leading to less hassle for employees.

Better Employee Experience

Unparalleled employer/employee experience. Ability to provide electric vehicles to support companies going green.

Scheduling & Monitoring

Easily schedule all of your trips for employees and easily monitor and track all rides live at a glance.

Amazon commuter dashboard powered by Swoop for all their commute rides

The screenshot displays the Amazon commuter dashboard. At the top, the Amazon logo is on the left, and a user profile with the name 'Welcome' is on the right. Below the logo are navigation links for 'Home', 'Trips', and 'Dashboard'. The 'Trips' section is active, showing the site 'DVC4'. A search bar labeled 'Search by trip #' is located on the right. The main content area is divided into two columns. The left column, titled 'Active Trips', lists three trips with details like address, time, and passenger count, each with a green 'Driver Heading to Pick-Up' button and an ETA. The right column features a map showing a route and a table of employee trip data.

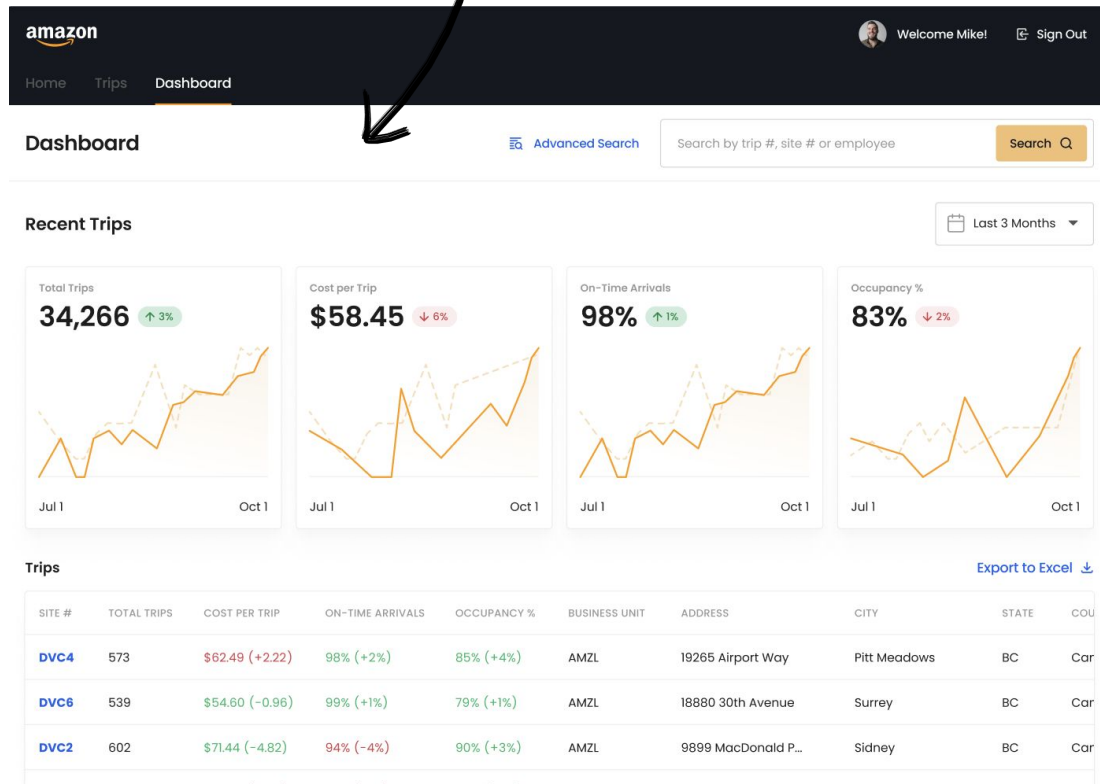

Pick-Up Time	ETA to Drop-Off	Total Passengers	Occupancy %
9:07 AM	9:33 AM	18	82%

EMPLOYEE	PHONE	EMAIL
Bugs Bunny	(404) 640-8890	bugs@amazon.com
Rachel Green	(310) 322-8890	rgreen@amazon.com
Michael Scott	(404) 678-3242	mscott@amazon.com
Ted Lasso	(898) 333-8890	lasso@amazon.com
Jeff Morgan	(404) 678-8890	willen@amazon.com

Real-time Reporting

Complete control of collecting and adding relevant rider information. Skip the heavy lifting of data collection, follow up calls on vendors, and lack of transparency of your daily transportation and manage it in one place.

Track all your relevant KPIs in one dashboard

Better Commuting Experience

Easy Booking

Visibility of all routes and select a seat directly from Swoop's custom app.

In-App Notifications

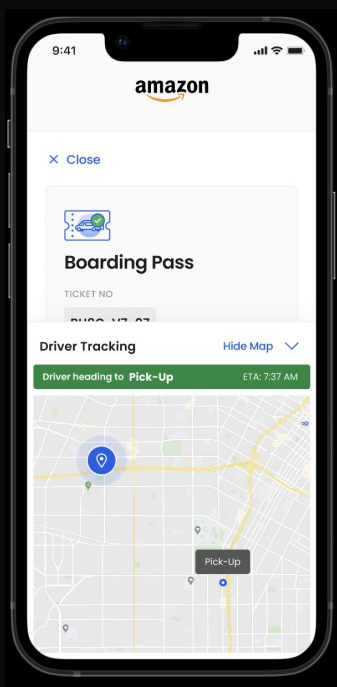

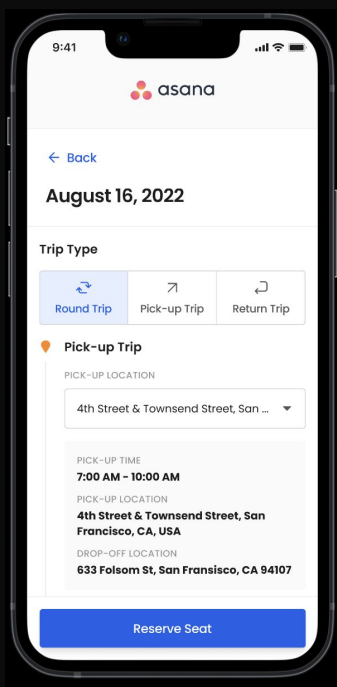

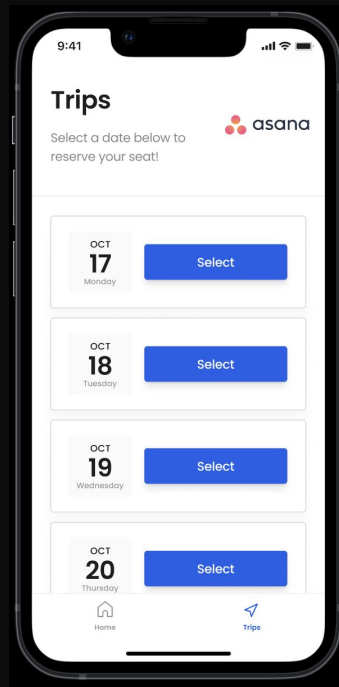

Get notified to upcoming rides, pick-up and drop-off locations.

Route Flexibility

Easily provide route and vehicle suggestions to make on-the-fly changes depending on passenger needs.

Swoop Safety

Live tracking of each ride and 24/7 in-ride support through the Swoop App.

Fleet options for every ride
