

Private Equity

MCM understands that private equity firms exist in a high-pressure and competitive environment. Private equity clients are constantly juggling risk with opportunity, and a dedicated, experienced team is critical to getting a deal across the finish line. Before, during and after a transaction, MCM will provide 360-degree analyses that examine each angle carefully. Our Private Equity Services Team is comprised of experienced CPAs and advisors from our assurance, tax and advisory teams, each of whom will bring their unique set of skills and discipline to the table.

MCM has worked with numerous private equity groups and portfolio companies, and we understand their needs throughout all phases of the life cycle.

Portfolio-Level Services

Our team has experience within all phases of the investment cycle, and we will be able to help guide you throughout the process.
