

preDOCS

Finally a way to automate your opening packages and safely return them to your file. Signed, Sealed, Delivered.

INTAKE FORMS DELIVERED IN 3.25 DAYS

Your buyers, sellers, borrowers and real estate agents' pre-closing information will come directly to your file eliminating redundant data entry and mis-keyed information. Tired of deciphering homeowner handwriting? preDOCS™ is your answer!

EASY TO USE INTERFACE

Our proprietary system guides buyers and sellers through the review, completion & signature of the opening documents

PROTECTED

Should your homeowners or settlement agents using our technology be fraudulently coerced into wiring funds to the wrong account, NextDeal will protect those funds up to \$500,000.

DigitalDocs

For the first time ever, the title agent is the first to know when a homeowner is back in the market.

NEW BUSINESS ALERTS

Instant alerts make you the first to know the moment homeowners are thinking of refinancing or selling. We sent 18,000 alerts last year.

REFERRALS IN ACTION

Secure transmission of the complete opening package, including wiring instructions, using the latest end-to-end encryption.

POST-SALE MARKETING

Homeowners receive regular targeted emails, marketing and access to their final closing documents.

NEXTDEAL'S TECHNOLOGIES ARE INTEGRATED WITH THE TITLE INDUSTRY'S LEADING SOFTWARE PLATFORMS.
