# kapszula

*The Kapszula is a pendant lamp made from a 95 mm glass bulb and a powder coated steel shade that is sitting on top of the bulb. The design is about simplicity in both appearance and structure: the shade is kept in place by the bulb and the cable itself without any extra fittings. The lamp could be used as a standalone pendant or use more and spread them in the room. The lamp is a winner of BigSEE Product Design Award 2022.*
