

PREGNANCY FOCUS GROUP

AMBITIONS OF THE PREGNANCY FOCUS GROUP

The focus group is aimed at tackling issues, challenges, and opportunities about pregnancy. What is new? What is next? Who are the start-ups focusing on pregnancy? What is their expectation/need? It is also the opportunity to connect and to exchange amongst experts, innovators and people who have an interest in this domain.

There will be four sessions across the program. Each session will be a chance to work with outside experts AND your own peers as well as guests (pregnant and not) and corporates.
