pp. **19** Our partners

Releasing the power and well-being of half the planet's population

FemTech on the rise

With the rapid rise and early successes of start-ups dedicated to women's health, FemTech is becoming a hot topic and a promising asset class for investors. In 2019, the global FemTech market generated \$ 820.6 million, with a market value estimated to be worth \$ 50 billion by 2025 (*Frost & Sullivan*)

Tech4Eva, the first FemTech accelerator in Switzerland, is a joint endeavour between the leading technology park in Switzerland, EPFL Innovation Park and health insurer Groupe Mutuel. Ferring Pharmaceuticals is also a key corporate sponsor of the program.

Tech4Eva Accelerator Program

Lan Zuo Gillet
EPFL Innovation Park

Nicolas Loeillot
Groupe Mutuel

The program has the ambition to accelerate the growth of promising Femtech start-ups, and to create an innovation platform in Switzerland, where disruptive start-ups and projects from around the globe can meet and develop innovative solutions for improving or advancing technologies relating to women's health. It also aims to create a global FemTech community by connecting all stakeholders in different markets active in the sector.

The first cohort of the program received over **110 early and growth stage start-ups applications** from around the globe - **34 of those are Swiss-based - 70 of which are led by women founders.**

Tech4Eva's 9-month acceleration program consists of multi-layer activities, such as mentorship by corporate experts, specialized workshops, roadshows, peer-to-peer experience, training curriculum as well as focus groups in different areas of FemTech. It will help selected start-up companies and early stage projects to refine their business models and go-to-market process strategy, develop pilot projects with potential business partners; it will assist more mature start-ups in their business development process and connect them with potential investors and customers by leveraging the network of EPFL Innovation Park and Groupe Mutuel, the network of their partners in the FemTech: Fermata (Asia), Women in Wearables (UK), Joyance Partners in USA, as well as governmental agencies such as Swiss Embassy UK, Swissnex Boston and SGE Japan.

Tech4Eva London Roadshow

The 3rd Virtual Roadshow of Tech4Eva is gathering start-ups, investors, corporate representatives, health systems and innovators to connect with the London innovation community to discuss the importance of strategic partnering, scaling, investing in and supporting women's health.

The Roadshow is the opportunity to learn how to transform an untapped segment in the healthcare industry and to meet the 15 growth-stage Tech4Eva start-ups that will present their innovative solutions addressing issues in Fertility & Pregnancy, Women's Wellness, Women's Medicine, Period Health, Menopause and Mental Health.

Swiss-based investors and leaders in healthcare will share business resources, market opportunities and investment options available to aspiring entrepreneurs and established business owners working to advance health technological solutions.

For further information on the roadshows, other events and the program visit: www.tech4eva.ch

22nd September Event Agenda

- 15:00** Welcome & Introduction
Lan Zuo Gillet, Deputy Managing Director, EPFL Innovation Park and Co-Director, Tech4Eva
- 15:05** Tech4Eva meets London TechWeek
8 growth-stage start-ups presentation
Moderated by Charlotte Chenu, Science and Innovation Officer, Embassy of Switzerland in the United Kingdom
A. L. Schaffgotsch, Impli
R. Tuytten, Metabolomic Diagnostics
M. Wipf, MOMM Diagnostics
D. Mohr, MUVON Therapeutics
T. Meschke, Preglife
S. Sahi, Testmate Health
A. Tasker, Viveca Biomed
L. Fontinoy, WOOM
- 15:15** Panel Discussion
How to scale your femtech start-up through strategic partnerships
Nicole Leeds, Head of Marketing Strategy, Clue by Biowink
Catherine Davies, Managing partner and head of the healthcare practice, Monticle and Expert in Residence, Women of Wearables
Berthold Hinzen, Head of Licensing Women's Health, Radiology & New Spaces, Bayer
Moderated by Nicolas Loeillot, Chief Innovation Officer, Groupe Mutuel and Co-Director, Tech4Eva
- 16:00** Tech4Eva meets London TechWeek
7 growth-stage start-ups presentation
G. Conley, Annaida Technologies
A. Albornoz, Aspivix
L. Krapinger, Breathe Ilo
E. Gazda, Embr Labs
E. Hahn, Fizimed
H. Shaviv, GalsBio
N. Lev, GynTools
- 16:10** Fireside Chat
Finding investment in the UK
Susan Trent, CEO, INNOVO by Atlantic Therapeutics
Moderated by Sophie Ehrlich, Director HealthTech, Silicon Valley Bank
- 16:40** Closing Remarks
Charlotte Chenu, Science and Innovation Officer, Embassy of Switzerland in the United Kingdom

CET time zone

Speakers

**Charlotte Chenu****Embassy of Switzerland in the UK**

Charlotte Chenu is the Science and Innovation officer at the Embassy of Switzerland in the UK, where she manages the [Innosuisse Internationalisation Programme](#). She graduated from the business school of the University of Lausanne (HEC), and now supports innovative Swiss startups entering the UK market. Along her career in Switzerland, India and now in the UK, Charlotte has built several programmes and events that support entrepreneurs at every stage of their growth. She has successfully guided Swiss startups in their journey by advising them on their internationalisation strategy and connecting them to investors, corporates and partners.

**Catherine Davies****Managing Partner & Head of the healthcare practice, Monticle & Expert in Residence, Women of Wearables**

Catherine Davies is a Managing Partner and head of the healthcare practice at Monticle. Prior to this, Catherine led the Competition and Cooperation team at NHS Improvement (and Monitor, its predecessor organisation).

She has advised boards and senior teams on how to approach large-scale transformation in order to achieve the best possible outcomes for patients, taxpayers and the local health system.

She is also a trustee of the charity, National Voices.

**Sophie Ehrlich****Director, HealthTech, Silicon Valley Bank**

Sophie is a Healthcare banker at Silicon Valley Bank (SVB) in London and focuses on supporting innovative digital health and medical device companies across the EMEA region.

Sophie has been working in health innovation for 18 years. She started her career in start-ups working with innovative medical device and digital health companies focusing on global strategy and sales development. She continued her career in Government at the Foreign & Commonwealth Office heading the Healthtech sector at the UK Israel Tech Hub, and then at Samsung Health where she worked on Samsung's digital health strategy and on external innovation. She is a mentor and judge for Tech Tour, MassChallenge and EIT Health, and a Digital Health Expert for the World Health Organisation (WHO).

Berthold Hinzen
Head of Bayer Pharma Business Development & Licensing

Berthold Hinzen is Head of Bayer Pharma Business Development & Licensing (BD&L) for Women's Health, Radiology and New Spaces and has 22 years of experience in the industry. Before joining the BD&L group, he was Senior Director Strategic Marketing Cardiology and Director in Medicinal Chemistry. Berthold Hinzen holds a Ph.D. in Chemistry from ETH Zurich, Switzerland. After a Post-Doc at the University of Cambridge, UK, he joined Bayer HealthCare Pharmaceuticals Research in 1998.

From 2008 to 2014 Berthold was Member of the Scientific Advisory Board of Proteros; from 2014 to 2019 he was member of the Board of Proteros.

Nicole Leeds
Head of marketing Strategy, Clue by Biowink

Nicole Leeds is the Head of Marketing Strategy at Clue, where she is leading the launch of Clue's newest feature: Clue Birth Control, an FDA-approved digital contraceptive. Nicole's work focus on monetization, B2B partnerships, and company strategy. With over 12 million users worldwide, Clue is one of the most popular apps in the health category and has been rated the top free period tracker app by the journal Obstetrics & Gynecology, a publication of the American College of Obstetricians and Gynecologists (ACOG). Nicole's has worked in digital health, medical devices, and global development in Germany, India, Rwanda and the United States.

Nicolas Loeillot
Chief Innovation Officer, Groupe Mutuel

Nicolas Loeillot is a senior technology entrepreneur and investor. Back in 2003, he founded a computer vision company in Japan. Pioneering in A.I. applications, his company served hundreds of projects with large companies in Japan, Asia and the US before being acquired by a GAFA in 2017. Since 2010, he chairs the Tokyo Interaction Center, a privately-owned incubator in central Tokyo, focused on early stage deep technology start-ups. In 2018, Nicolas Loeillot joined the Swiss health insurer Groupe Mutuel as Chief Innovation Officer to setup an innovation strategy, accelerate deployments of A.I. and craft a data-driven, prevention-focused future of the company. In 2021 he joins InnoSuisse as Expert for a 4-year mandate.

Susan Trent
INNOVO by Atlantic Therapeutics

Susan joined Atlantic Therapeutics in 2019 as SVP and GM, US. Based in Atlantic Therapeutics' Boston, MA office, Susan has launched the company's INNOVO® brand in the US and demonstrated its potential as a Category-disrupting direct-to-consumer solution for stress urinary incontinence (SUI).

Susan's 20+ year career with GlaxoSmithKline makes her ideally suited to lead Atlantic Therapeutics in this exciting new growth phase. As an experienced senior Healthcare Executive, Susan has a strong track record leading teams to deliver large-scale, high-growth healthcare brands globally. Since the launch of INNOVO® into the US market in March this year, sales have exceeded initial expectations, gaining momentum and market-traction across the US month-by-month. The company closed an internal financing round in June and is planning a Series C raise early in 2021 to further accelerate sales growth in the US market as well as bring product innovation into the US market and elsewhere.

Lan Zuo Gillet
Deputy Managing Director, EPFL Innovation Park

Lan is the Deputy Managing Director of EPFL Innovation Park and an Expert of Innosuisse – the Swiss Innovation Agency. She has 23 years of hands-on professional experience in industry as well as in the ecosystem of innovation & entrepreneurship. Lan started her career at R&D department of Rolex, in charge of creating new computer aided design and optimisation tools in the product development process. She was later appointed as Head of Operational Planning at Pictet, working closely with a startup to design, develop and implement a management information system for group operation control. As the Managing Director of Geneva Creativity Center, she connected large corporations, SMEs, start-ups and researchers to initiate innovative joint R&D projects. Lan has a PhD degree from EPFL, an MBA from HEC Lausanne and postdoctoral applied research experience at Stanford University.

Selected Growth-Stage Start-ups

Gaurasundar Conley
CEO / Co-founder

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Medical Devices

A medical device for non-invasive analysis of embryos in assisted reproduction cycles. It will help doctors choose the most viable embryo to obtain a pregnancy.

Andrea Albornoz
Head of Global Marketing & Sales

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Medical Devices

At ASPIVIX, we innovate women's care as we believe it's about hefty time for gentler and more modern gynaecology! We create a new generation of medical instruments, eliminating pain and bleeding, for millions of women every year. CAREVIX is a single-use medical instrument designed to replace the traumatic tenaculum which is nowadays a standard of care in millions of gynaecological procedures. CAREVIX allows gentle handling of cervix for all procedures requiring an access to the uterus in gynaecology.

Lisa Krapinger
CMO

Country: Austria
Sector: Fertility & Pregnancy
Solution: Monitoring Equipment

Carbomed Medical Solutions is an Austrian female empowerment tech start-up on a mission to break the taboo which surrounds speaking out about trying to conceive and cycle tracking. breathe ilo is the world's first fertility tracker that uses breath analysis to identify a woman's ovulation pattern and fertile window in a way that is easy, comfortable and within one minute. It is a small handheld device synced to an app that reads the breath's CO2 saturation to determine where a woman is in her cycle with incredible accuracy and can be done at any time of the day.

Elizabeth Gazda
Founder

Country: United States of America
Sector: Menopause
Solution: IoT / Wearables

Embr Labs

www.embrlabs.com

By 2025, there will be 1.1 BN women in menopause, suffering from hotflashes. EmbrLabs has harnessed the body's response to temperature via a wrist-worn bracelet to dramatically affect the impact of menopause symptoms.

Emeline Hahn
Founder

Country: France
Sector: Wellness
Solution: IoT / Wearables

Fizimed

www.fizimed.com

Fizimed develops connected medical devices for women. 1 woman in 10 is suffering of urinary leaks. Recommended by health professionals, Emy is a connected device to strengthen pelvic floor. Emy allows any woman to do Kegel exercises at home.

Hilla Shaviv
CEO

Country: Israel
Sector: Period Health
Solution: Monitoring Equipment

www.galsbio.com

Gals Bio is leveraging the monthly menstrual secretions to monitor and screen women health from the comfort of home with the accuracy of a lab.

Nimrod Lev
CEO

Country: Israel
Sector: Women's Medicine
Solution: Diagnostics

GYNTOOLS
SIMPLY SOPHISTICATED DIAGNOSTICS

www.gyntools.com

GynTools' revolutionary 5 minute vaginitis diagnostics is replacing current long turnarounds & misdiagnosis. Our solution is disrupting a multi \$B market. GYNI allows for correct (>90%) diagnosis within minutes, from a single swab. The system has 4 elements- a smart sample collector, a scanner, web based user interface and a cloud, deep learning based algorithm that analyze the data from the scanner and send back results within seconds.

Selected Growth-Stage Start-ups

Anna Luisa Schaffgotsch
CEO / Founder

Country: United Kingdom
Sector: Fertility & Pregnancy
Solution: IoT / Wearables

www.impli.org

Impli improves healthcare and makes patients lives easier with implantable technologies.

Robin Tuytten
CEO

Country: Ireland
Sector: Fertility & Pregnancy
Solution: Diagnostics

www.metabolomicdiagnostics.com

Metabolomic Diagnostics is a deep-tech company specialized in the development of novel biomarker-based diagnostic solutions for complex diseases. Metabolomic Diagnostics current focus is on pregnancy health, including laboratory test for screening for Preeclampsia risk early in pregnancy.

Mathias Wipf
CEO / Co-founder

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Diagnostics

www.mommdiagnosics.com

MOMM Diagnostics is developing a fast and precise point of care test for preeclampsia - a dangerous pregnancy condition. Our technology will assist doctors on-site to save the lives of of mothers and babies. MOMM Diagnostics' novel patented point of care technology allows the quantification of low-abundant biomarkers from a single drop of the mother's blood. MOMM's rapid preeclampsia test aims at reliable and early-stage molecular diagnosis of PE during doctors' visits, using low-cost single-use cartridges and a hand-held reader.

Deana Mohr
CEO

Country: Switzerland
Sector: Wellness
Solution: Therapeutics

www.muvon-therapeutics.com

Muvon is a biotech spin-off from UZH with the mission to advance cell therapies for skeletal muscle regeneration, with female stress urinary incontinence as first indication.

Tobias Meschke
CEO / Founder

Country: Sweden
Sector: Fertility & Pregnancy
Solution: Application Software/
Mobile Apps

www.preglife.com

Preglife is a HealthTech company focused creating the best pregnancy- postpartum and baby app. Preglife's mission is to maximize the conditions for all parents to be. You follow the development during the pregnancy, post partum period and toddler up to 2 years. We are now in the process of developing personalized content and programs to the user based on her medical history and current symptoms and mood.

Siew-Veena Sahi
CEO / Co-founder

Country: Switzerland
Sector: Women's Medicine
Solution: Diagnostics

www.testmatehealth.com

A spin-off the University of Geneva taking care of sexual health by making accurate testing easy and accessible, no matter who you are, or where you are.

Andrew Tasker
CEO / Founder

Country: United Kingdom
Sector: Wellness
Solution: Medical Devices

www.contrelle.com

Contrelle Activgard is a Class IIa medical device for female stress urinary incontinence. It is a disposable and discreet bladder support which is designed to stop leaks before they happen.

Laurence Fontinoy
CEO / Co-founder

Country: Spain
Sector: Women's Medicine
Solution: AI services and data analysis

www.woomhealth.com

WOOM is a women's health tracker, assisting women during the different stages of their lives: tracking cycles and prevention, trying to conceive, pregnancy, postpartum up to menopause. It's all about data science, we collect+100 parameters of user's lifestyle, cycle, health and biometrics data to provide personalized recommendations, empowering women to make the right decisions about their reproductive health through a robust set of data and technology based on neural networks & machine learning.

Selected Projects and Early-Stage Start-ups

Ira Guha
Founder

Country: United Kingdom
Sector: Period Health
Solution: Personal Products/
Consumer non-durables

www.asancup.com

Working at the Harvard Innovation Lab, Asan developed the world's highest quality reusable menstrual cup. For every cup we sell, we donate one for free to a woman or girl who cannot afford access to any type of period care.

Amrish Nair
Co-founder

Country: Singapore
Sector: Fertility & Pregnancy
Solution: Diagnostics

www.bio-rithm.com

Biorithm aims to deliver predictive and personalised maternal & fetal medicine to improve pregnancy experience, birth outcomes and care delivery efficiency. Biorithm's holistic remote monitoring platform uses a novel medical-grade abdominal ECG wearable and algorithms to offer clinician-prescribed self-monitoring of fetal and maternal heart rate and contractions.

Petronela Sandulache
CEO / Founder

Country: Switzerland
Sector: Women's Medicine
Solution: Application Software/
Mobile Apps

www.cordifio.com

CorDiFio is an awareness raising & early-detection AI-powered digital health platform to empower both women & doctors in reaching the right heart disease diagnosis in a timely manner.

Florine Duplessis
CEO / Co-founder

Country: France
Sector: Fertility & Pregnancy
Solution: Application Software/
Mobile Apps

www.efelya.com

Efelya is an eHealth start-up dedicated to the medical monitoring of pregnancies and the screening of high-risk pregnancies using artificial intelligence. Efelya is developing an App for the patients and a Web App for practitioners.

Salhi Sanael
Founder

Country: France
Sector: Women's Medicine
Solution: Application Software/
Mobile Apps

Egyn, a web application will decompartmentalize the journey of cervical cancer screening and ensure faster and more personalized care with an Ai risk assessment algorithm.

Sonali Quantius
CEO / Founder

Country: Switzerland
Sector: Mental Health
Solution: Application Software/
Mobile Apps

www.haplomind.com

Haplomind is a platform that effectively screens, manages and treats global pre and postpartum depression & anxiety. The digital app that can be used by women to be screened, and get support and at the same time for healthcare professionals to remote screen using voice AI and have access to best practices.

Yannick Devaud
CEO / Founder

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Medical Devices

www.kovemedical.com

Kove Medical's device is used at the end of in-utero fetal surgeries to seal the fetal membrane and prevent it to rupture, decreasing the chance for preterm birth. We prevent premature birth following in-utero fetal surgeries.

Selected Projects and Early-Stage Start-ups

Colleen Draper
CEO / Founder

Country: Switzerland
Sector: Wellness
Solution: Diagnostics

www.nutraUHealth.com

PhenomX is a precision nutrition for women company focused on using the latest non-invasive technologies to measure hormonal health imbalances and aging and provide therapeutic nutrition solutions.

Country: United States of America
Sector: Women's Medicine
Solution: Personal Products/
Consumer non-durables

www.truelli.com

1st non-invasive blood test in the World, with instant results! We present a menstrual pad, called "Truelli-Dia", that has the ability to detect: Vitamin Deficiencies, Infertility, STDs, Cancer affiliated biomarkers and alert the user via our barcode reader mobile App.

Cindy Moy Carr
CEO / Founder

Country: United Kingdom
Sector: Menopause
Solution: Application Software/
Mobile Apps

www.mysystems.com

Vorstatter is bringing the endocrine system into the 21st century with a perimenopause/menopause management app (mySystems) to give consumers the best outcome per healthcare dollar. mySystems combines symptom tracking with content and community to give busy women data driven information, higher quality medical visits and improve clinical outcomes.

Paola Craveiro
CEO / Founder

Country: France
Sector: Wellness
Solution: Application Software/
 Mobile Apps

www.vulvae.io

Vulvae is the 1st digital health journal, 100% dedicated to vulvas' health. The app will provide pain tracking tools, informative contents and personalised guidance for anyone experiencing vulvar pain, currently on a diagnosis and/or treatment pathway. Through the app, we aim at revolutionising the wellbeing and health of all vulvas, and free them from all their pain. Vulvae, the new way to take care of your vulva

Ines Schiller
Founder

Country: Germany
Sector: Period Health
Solution: Personal Products/
 Consumer non-durables

Radically regenerative, exploitation-free and green period products made from seaweed. We want to produce innovative period products from algae to prove product-excellence, radical sustainability and empowerment can go hand in hand. Our products shall not only empower women and reframe the social stigma associated with periods, but they will also be trailblazers for a circular economy in accordance with nature - leveraging the incredible potential of algae.

Yair Kira
Founder

Country: Germany
Sector: Wellness
Solution: IoT / Wearables

YoniCore medical device has a silicon form that individually inflates inside the vagina to treat pelvic organ prolapse and incontinence immediately. While the organs are held in a healthy position, the pelvic muscles are trained over the app.

Virginia Franco
CEO / Founder

Country: Switzerland
Sector: Fertility & Pregnancy
Solution: Diagnostics

www.yonisolutions.com

Vaginal microbiome analysis for women wanting to improve their chances of In-vitro fertilisation.

Founding Partners

EPFL Innovation Park

The **EPFL Innovation Park** supports disruptive innovations and the transfer of technologies of the EPFL and other regional academic partners. It provides flexible office space, training, acceleration and coaching services to 250 high-tech companies: start-ups, SMEs and R&D centres of large companies. Together with its partners and a dynamic community of venture capital firms experts and service providers, the Innovation Park is positioned as the main pole of entrepreneurship in Western Switzerland.

Groupe Mutuel is one of the leading personal and health insurance companies in Switzerland: more than 1.3 million private customers and close to 24'000 companies rely on the insurer every day. In addition to compulsory health insurance (LAMal/KVG) and supplemental insurance (LCA/VVG), customers can choose from an extensive range of life insurance plans to cover risks and provide for their individual retirement benefits, as well as from a range of patrimony insurance solutions. Moreover, Groupe Mutuel insurers provide daily allowance insurance to companies, pursuant to LAMal/KVG and LCA/VVG, as well as compulsory accident insurance (LAA/UVG). Groupe Mutuel also manages Groupe Mutuel Prévoyance-GMP pension fund.

Network Partners

The **Embassy's Swissnex** team is part of the Swiss global network connecting Switzerland and the world in education, research and innovation. Our mission is to support the outreach and active engagement of our partners in the international exchange of knowledge, ideas and talent. Swissnex is the launchpad for Swiss startups going global. Our equity-free startup programs are customized to the needs of entrepreneurs exploring or entering the UK market, and we co-create programs and provide services to other Swiss innovation partners.

The **Department for International Trade (DIT)** promotes British trade worldwide. It encourages and assists businesses to export and helps to recognize key opportunities for their business. In the Yorkshire and the Humber region, the DIT has over 30 International Trade and e-Commerce specialists who support local businesses with one-to-one meetings along with reliable and impartial advice.

Fermata accelerates the development of the FemTech ecosystem and a community that celebrates diversity in society. Create a place for women to share their concerns and issues related to their bodies Curate FemTech products from around the world and provide solutions in Asia.

Ferring Pharmaceuticals is a research-driven, specialty biopharmaceutical group committed to helping people around the world build families and live better lives. Ferring is a leader in reproductive medicine and maternal health, and in specialty areas within gastroenterology and urology.

Joyance Partners is the first venture fund focused on finding and growing new companies that deliver Delightful Moments derived from science. Delightful Moments are part of all human experience: the small, but powerful, separations from the daily humdrum when we feel stronger, calmer, more joyful, more in control, more distant from pain and anxiety.

Silicon Valley Bank (SVB) connects smart money investors to Swiss seed and early-stage technology startups. SICTIC is a non-profit association, which has a strong investor community and organizes the deal flow and matchmaking of startups and investors online and at pitching events. We have offices in Zürich, Lausanne and Ticino.

Since 2018, SICTIC has become the largest and most active business angel network in Switzerland and was awarded "Best Performing EBAN Member 2018" from over 150 member organizations in more than 50 countries.

Swissnex is the Swiss global network connecting Switzerland and the world in science, education, and innovation. Our five locations and outposts established in the world's most innovative hubs support the outreach and active engagement of our partners in the international exchange of knowledge, ideas and talent.

Women of Wearables (WoW) is a leading global organisation aiming to inspire, connect, and support women and allies in emerging technologies such as wearable tech, IoT, health tech, and everything in between.
