

Mike Kaufmann, former Cardinal Health CEO, joins RNA Disease Diagnostics, Inc. Board of Directors

October 3, 2023

Mike C. Kaufmann recently joined the Board of Directors of RNA Disease Diagnostics, Inc. (RNADD). Mike is a former Fortune 15 CEO and CFO, and an active advocate and executive speaker on leadership and diversity, equity, and inclusion (DE&I). “I enjoy spending my time with companies and technology that will lower costs and improve the quality and access to healthcare. I believe RNADD has this potential”, said Kaufmann.

Mike spent 32 years of his career at Cardinal Health, a global, integrated healthcare solutions company providing vital products, world class services and customized solutions for providers along the continuum of care. Mike spent the last five years as CEO leading the company to record revenues, driving improvements in its portfolio and cost structure, and managing through the impacts of Covid, particularly those on employees and the supply chain. Over the years, Mike served in a wide range of executive leadership positions within operations, sourcing, sales, finance, and general management. Prior to being CEO, Mike was Chief Financial Officer (CFO).

“We are delighted to have Mike join the RNADD Board of Directors. His experience will be invaluable as we take our Point-of-Care molecular diagnostics technology platform forward to commercialization”, stated Allan Oberman, Chairman of RNADD.

About RNADD

RNA Disease Diagnostics (RNADD) was formed to create a best-in-class rapid and accurate molecular diagnostic technology platform that will contribute to the prevention of infectious disease transmission and to better the health of the citizens of the world. The Company plans to leverage its proprietary POC electrochemical and antisense oligonucleotide (ASO) RNA diagnostic technology across multiple diseases and to create a highly accurate, quick, affordable, and multiplexed disease diagnostic testing platform.
