

BEREAVEMENT SECTOR ENVIRONMENTAL POLICY STATEMENT

Comply with the current environmental legal requirements and standards.

Operate processes in such a way as to minimise environmental impact ensuring continual improvement in environmental performances.

Manage the careful selection, specifying and procurement of materials from environmentally aware and sustainable resources.

Maximise the benefits of environmental awareness in the day-to-day operations of all sector facilities.

Implement policies and procedures within the organisation to achieve sustainable improvements in the minimising of waste, prevention of pollution and maximising energy efficiency.

Translate environmental processes into a defined Environmental Management System.

Monitor and evaluate the environmental credentials of suppliers, encourage and assist them to develop robust ethical and environmental policies.

Encourage all engaged by the organisation to take ownership for good environmental practice. Ensure the provision of relevant training, emphasising correct operational procedures and exceptional internal communication.

Nominate a senior management post to ensure appropriate environmental processes are communicated, implemented and maintained at all levels within the business.
