

iClima Global Decarbonization Enablers Index

A MUCH NEEDED SHIFT IN CLIMATE CHANGE INDEX NARRATIVE. FOCUSING ON THE SOLUTIONS: THE PRODUCTS AND SERVICES THAT PRECLUDE DAMAGING CO2E EMISSIONS FROM EVER TAKING PLACE

WHY

CLMA?

To represent the companies that are leading climate change mitigation. We can move our economies away from BAU high emission transportation, energy, food, and heat. GLCLIMUN is in line with innovations that are reshaping our world.

The **best way** to reduce carbon in the atmosphere is by **not emitting** in the first place.

What are CLMA's key metrics?

RULES BASED, DATA DRIVEN

Green revenue and Potential Avoided Emissions, in Gigatons of CO2e. The delta between a high emission BAU scenario and a lower emissions one enabled a CLMA solution.

What makes CLMA so robust?

BALANCED | COMPREHENSIVE | HOLISTIC ESG

A portfolio approach; a 'one stop shop' for owning the relevant solutions. GLCLIMUN has over 160 companies in a modified equal weight. It is not just about gases; GLCLIMUN incorporates S, G and broader E indicators when screening companies.'

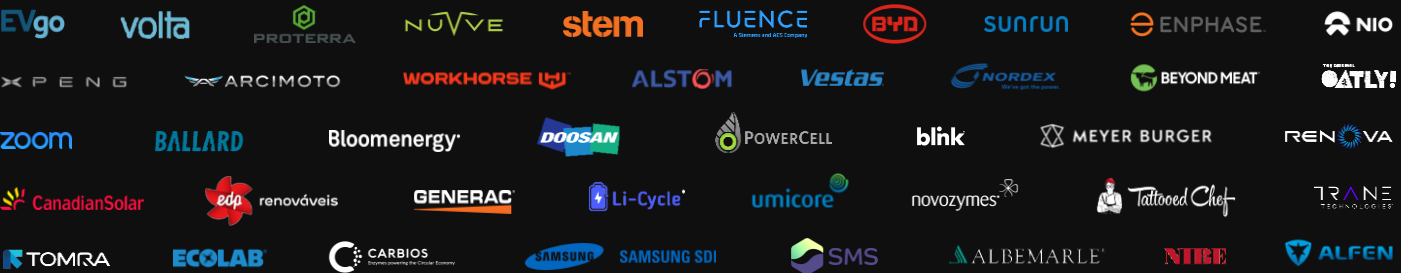

What CLMA is not?

No ESG black box scorecards | No usual FAANG/MAMAA and banks | No lack of clear key metrics

What companies are in CLMA that make it so unique?

Telepresence | Heat Pumps | Smart Meters | Smart Thermostats | Fuel Cells | Plant Based Diet | Electric Micro-transportation | EV Chargers | Ride Sharing | Electrolysers | Recycling Solutions Wind Generation Solar Generation | Renewable Equipment | Long Duration Energy Storage | Green Hydrogen Battery Recycling | Building Insulation | Energy Efficiency | Smart Grid | Local Solar | Green Finance Vehicles 2 Grid | Virtual Power Plants | Water Efficiency | Pollution Control

Sample of companies:

Climate change solutions are scaling up and converging enabling decarbonization and regeneration of the planet

Climate change is the biggest problem the world faces, but mitigating it is also the biggest investment opportunity of our lifetime - CLMA represents the companies in line with this unprecedented value creation.

iClima has a unique stewardship vision. CLMA will VOTE & ENGAGE with companies to work towards a future where, for example, solar panels are made of solar energy and are fully recycled.

The transition towards Net Zero is accelerating. We are reshaping our economy towards sustainability and low emissions.
