We have preferences involving cultural and youth centres managed by public institutions. A strong involvement in ICT technologies will be an asset.

We also want to create a skills manual for the entrepreneurs in ICCs, aimed at trainers and educators so that they can get the tools and methodologies to promote the participation of young cultural managers and artists in the digital industry. We aim to create 3 Hubs (in each partner's headquarters there will be 1) where these individuals will be able to meet digital tools in person and learn how to use them thanks to the use of non-formal education methodologies. In the Hub we will organize 7-day acceleration programs so that, once they have acquired the necessary knowledge, the target groups can carry out their business cultural project idea and make it a reality
