WCHQ Adult Obesity Toolkit for Primary Care

“How to help patients with obesity in your primary care office”

April 26, 2023

11:30 AM – 1:00 PM CST

A WCHQ Webinar Event

Register

This WCHQ event is open to the public – registration is required but there is not a fee to participate.

Contact jkoberstein@wchq.org

Featuring: Samantha Pabich, MD

Dr. Sam Pabich is an assistant professor in the Division of Endocrinology, Diabetes and Metabolism at The University of Wisconsin. She recognizes that historically obesity has been treated as a "cosmetic" issue yet sees the tremendous impact it has on her patients' health and well-being; she is therefore passionate about changing the perception of obesity treatment and advocating for prevention efforts within the medical field and the country overall.
