

Mobile USB powered training table with no cords!!

- Untethered Power
- 4 USB ports
- SmartEdge technology
- Safe and secure lock access for battery compartment

RE-LOAD
TRAIN

*Untethered table power
for mobile devices*

The **RE-LOAD Train** power/recharging unit features one USB port per side (four total). Charge or power any smart phone or tablet. When the battery needs to be exchanged, the glowing blue light becomes a glowing red light signifying it is time to replace the battery with a fresh recharged battery.

The table top features our "SMARTedge" protective edge technology. It is a poured urethane edge that is not only extremely durable, but features an anti-microbial and anti-fungal additive. SMARTedge is also a leading green product consisting of 65% by weight vegetable oil, a rapidly renewable resource.

training tables

The **RE-LOAD Train** charging table has a flip top to access the battery compartment. The table also nests when folded to easily move and store when needed.

The optional recharging cart includes eight batteries and eight chargers for convenience.

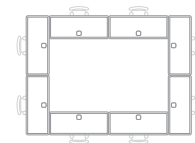

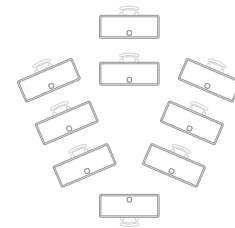

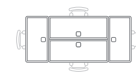

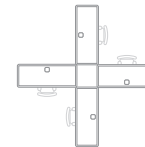

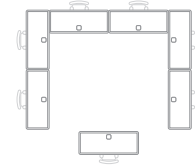

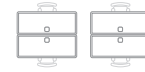

configure away!

Moveable power anywhere, anytime for classrooms, common spaces, dining and lounge areas. Configure your space in many ways for active learning and collaboration in large or small groups while powering devices.

Note: Laminate shown on RE-LOAD Train is Wilsonart Pinball 4937-38.
