

CJ2 TRANSFORMATION

WITH REVOLUTIONARY TAMARACK ACTIVE WINGLETS

 TAMARACK

GET THE BEST LOOK FOR YOUR CJ2

Tamarack Active Winglets are a patented, smart-wing technology that will completely transform the beauty and performance of your CJ2. They dynamically respond to changing loads and conditions and are designed for maximum aerodynamic efficiency and stability without the need for the additional weight required by traditional winglets.

- Faster, direct climb to FL450, even when heavy
- Increased range and fewer stops
- Unparalleled stability, safety and a smoother ride for your passengers
- A transformative upgrade that will turn heads on the ramp and add value to your aircraft

FLY YOUR CJ2 MORE ECONOMICALLY

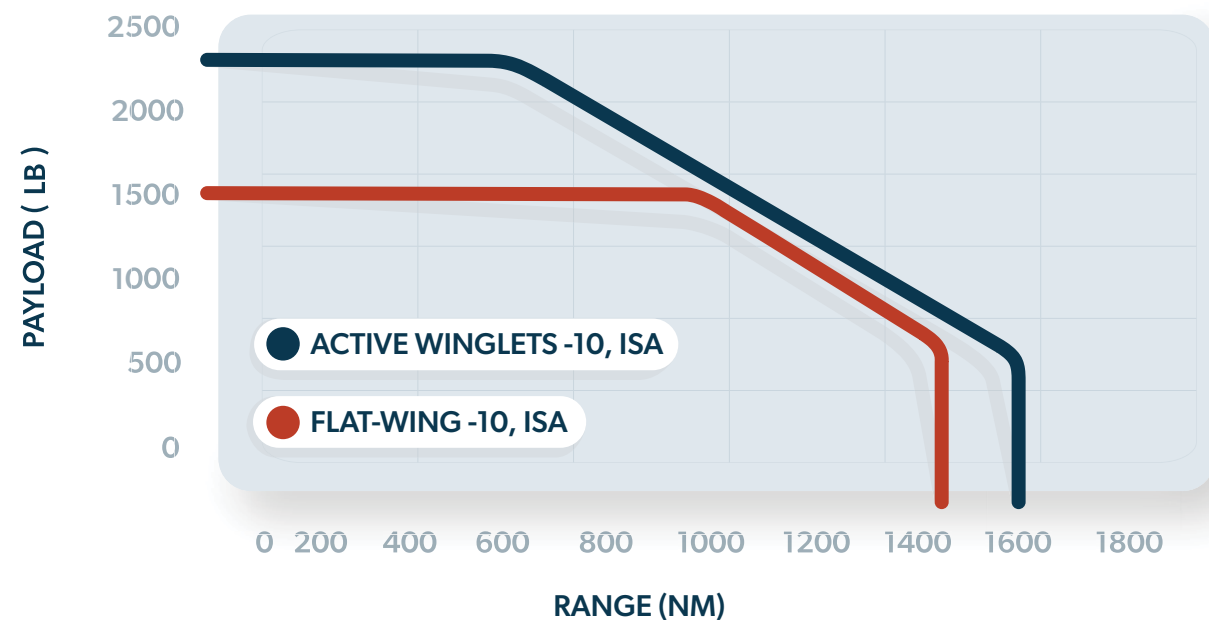

The first time you take off with your new Active Winglets, you'll immediately recognize the dynamic response to changing loads and conditions. Active Winglets are uncompromised aerodynamically, allowing peak efficiency – without the need to add additional wing structure. Not only does this give you a smoother, safer ride, it also delivers efficiency gains in fuel consumption and a host of other benefits including:

- Up to 1,700 nm range at MCT
- Fewer stops, less time wasted between flights
- Direct Faster direct climb to FL450 — even with heavy or ISA+ conditions
- Increased useful load via 800 lbs MZFW

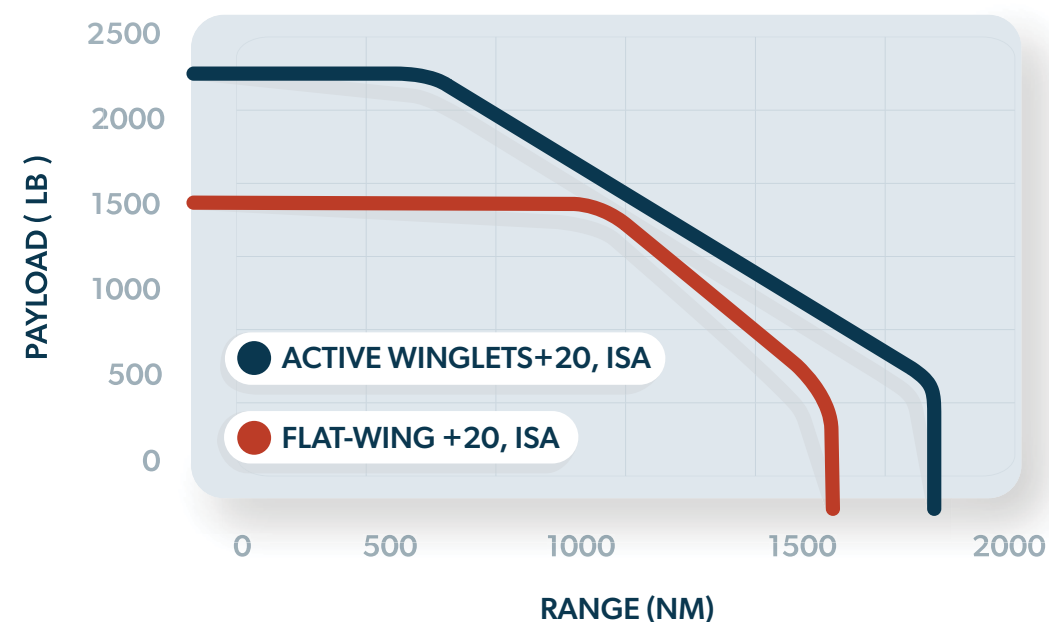

CJ2 ESTIMATED PAYLOAD-RANGE COMPARISONS FOR DIFFERENT CONFIGURATIONS: **ISA +0 & 600 LB FUEL RESERVE, 100 LB TAXI FUEL, MCT**

CJ2 ESTIMATED PAYLOAD-RANGE COMPARISONS FOR
DIFFERENT CONFIGURATIONS: **ISA -10 & 600 LB FUEL
RESERVE, 100 LB TAXI FUEL, MCT**

CJ2 ESTIMATED PAYLOAD-RANGE COMPARISONS FOR
DIFFERENT CONFIGURATIONS: **ISA +20 & 600 LB FUEL
RESERVE, 100 LB TAXI FUEL, MCT**

FLY YOUR CJ2 MORE SAFELY & COMFORTABLY

Your precious cargo is in good hands.

Tamarack Active Winglets are backed by rigorous testing, uncompromised attention to detail, and a steadfast commitment to craftsmanship. Each of our world-class transformation centers & maintenance facilities are FAA & EASA certified — ensuring that you'll always receive the highest standard of professional service.

Safety benefits of an Active Winglet equipped CJ2:

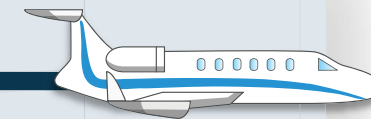

- Improved safety through single engine climb performance & a more stabilized approach on landing
- Turbulence canceling which gives a 25% smoother ride
- Upgraded LED wingtip lighting for maximum visibility

Not only do Active Winglets provide exceptional levels of safety, they also deliver unparalleled stability and smoother ride for your passengers.

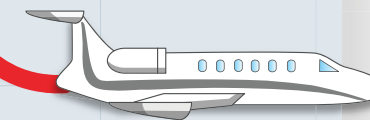

That's our promise.

ACTIVE WINGLET CJ2

UP TO 25% SMOOTHER FLIGHTS **WITH ACTIVE WINGLETS**

YOUR FLATWING CJ2

INCREASE YOUR ROI & RAMP APPEAL

Time for the tarmac test; park your flat-wing CJ2 next to an Active Winglet equipped CJ2. See the difference?

Active Winglets really are that impressive. The size, shape, and look completely updates the aesthetic of any flat-wing CJ2. They also add long term value - VREF has always valued Tamarack's Active Winglets at 100% of their purchase price for CJs.

Transform your jet with:

- Large presence due to six additional feet of wing extension
- Personalized paint scheme to match original aircraft
- Seven-to-ten-day installation process for a beautifully remodeled aircraft

“Customer service is very supportive...
they have always been extremely responsive.”

— Lindsey Moreland, Corporate Pilot

TAMARACK

FLY YOUR CJ2 WITH PEACE OF MIND

Welcome to the Tamarack Family.

Our commitment to you and your aircraft extends far beyond the production and installation of your new Active Winglets.

All Active Winglet purchases are accompanied by an inclusive warranty that covers parts, installation, and cosmetic issues - giving you the peace of mind that counts.

Our team of highly qualified professionals is here to help you maximize your experience with 24/7 tech-support offered in the USA and Europe. In addition, our global network of over 20 Authorized Service Centers means that maintenance, or AOG support, is just around the corner.

“We have slower landing speeds,
we use less brake, we use less tire.”

— Scott Sa, DDS Owner/Pilot
