<http://theconnectory.org/>

Born out of Time Warner Cable's Connect a Million Minds initiative, The Connector is in its own words, "a national database of hands-on science, technology, engineering and math (STEM) learning opportunities has relaunched at [theconnectory.org](http://theconnectory.org). This new site offers a wider variety of local STEM programs and an easier search experience. We invite you to visit the new and improved Connector, the largest database of its kind."
