

TurFresh

Artificial grass deodoriser.

TurFresh™ is a bio-enzymatic formula made up of microbes that consume the smelly urea crystals found in urine.

TURFRESH STARTER PACK

\$44.95

TURFRESH DUAL PACK

\$64.95

TURFRESH 4LITRE REFILL

\$84.95

TURFRESH 5LITRE MAINTENANCE PACK

\$104.95

The colony of microbes begins ingesting the urine crystals found in the artificial grass, converting the smelly crystals into water and carbon dioxide (an odorless gas). This process eliminates the smell instead.

TurFresh™ contains no harsh or hazardous ingredients, is biodegradable, environmentally friendly and safe to use around humans and animals.
