

Be_Hold

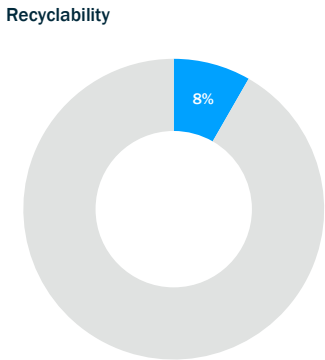

Storage

Be_Hold modular storage is a complete solution for ease of planning and space optimization across an open floorplate—in one storage platform. Providing a clean, minimalistic aesthetic, Be_Hold is thoughtfully designed and constructed—making it a good investment choice for the long-term.

Be_Hold™ storage is manufactured in Teutopolis, Illinois and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Impact by Life Cycle Stage

Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.
