Openest Chick Pouf

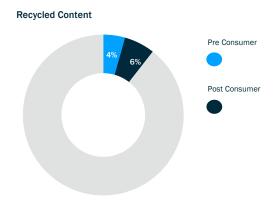

Lounge

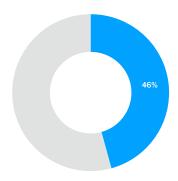

Bridging the unexpected and familiar, Openest lounge furnishings bring a distinctly new perspective to the work landscape. Inviting and approachable, the Openest Chick pouf envelops you in comfort, providing a cozy, eggshell-like nook, an ottoman, or a catch-all surface.

Openest® Chick™ poufs are manufactured in a zero landfill, ISO 9001 and ISO14001 certified facility in High Point, North Carolina and is transported in freight vehicles with optimized volume for efficient use of loading space. When a product reaches the end of its useful life, customers and partners are encouraged to avoid landfilling and instead pursue second life options.

Material Chemistry

Haworth is committed to providing our customers with products that support safe and healthy environments. We are working diligently toward the ongoing reduction of hazardous chemicals associated with parts and materials we source, as new safer alternatives become commercially available.

These include, among others, PVC, benzidine dyes, hexavalent chromium, certain hazardous phthalates, PBDE flame retardants, and those chemicals known to contribute towards ozone depletion.

We are committed to achieving our goal of being transparent with our customers on our progress.
