SahiPro
Case Study

Client: DirectPath

DirectPath
To Reduce Health Care Costs

DirectPath guides employers and brokers through the health care system with a cohesive suite of year-round services to reduce cost and increase benefits engagement.

DirectPath guides employees through the complex maze of health care with individualized education for selecting the right benefit plan, expert assistance in making informed care choices and rewards for sensible financial decisions.

✔ REQUIREMENTS
- User Interface black box testing.

✔ WHAT MADE US CHOOSE SAHI PRO OVER OTHER TOOLS?
- Very easy to use, out of the box API, and can be used with other languages e.g. JS, Perl, etc

✔ SAHI PRO' USAGE
- We use Sahi Pro to run system health checks, sanity tests and some regression tests. It works with our own and 3rd party integration systems.
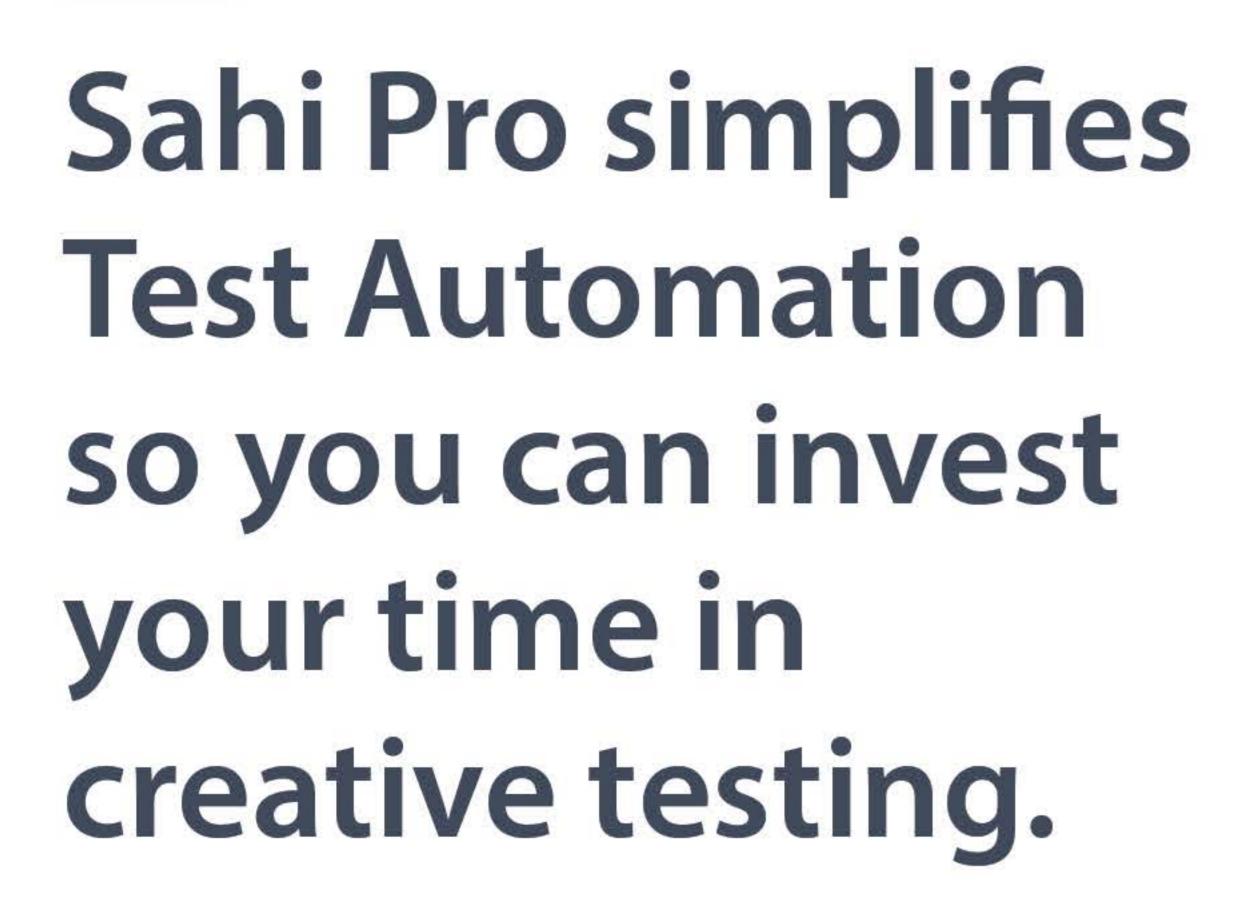

✔ BENEFITS BY DEPLOYING SAHI PRO
- It works almost all the time. But if it does not work for some reason, Sahi Pro support will fix the issue for you very quickly.

If you do repetitive and tedious UI regression tests, SahiPro is for you! SahiPro works out of the box and provides its own API, so you do not need to write code from scratch.
