

PL-PS-M200-DIM-24

24VDC 192W DIMMABLE CLASS 2 MULTI OUTPUT LED DRIVER

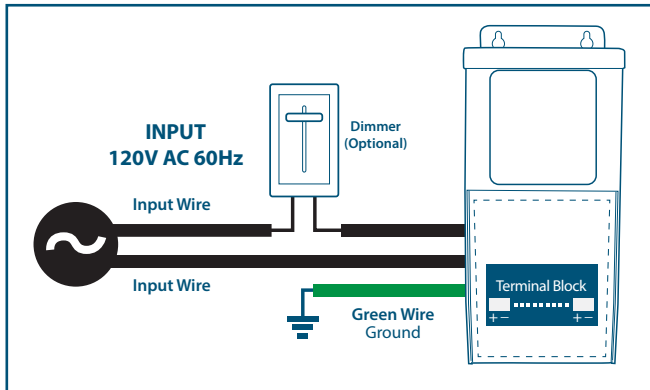

ParadigmLED's PL-PS-M200-DIM-24 is a multi-output class 2 LED dimmable LED driver. It is equipped with push-to-reset breakers, one on each output, protecting both the load and the driver. Encased in a high-quality NEMA 3R metal case enclosure, that includes 5 knock-outs to enable easy installation. The PL-PS-M200-DIM-24 is dimmable with any standard MLV TRIAC dimmer.
