INTEGRAL WALL PANEL SERIES

FEATURES:

- A: internal metal structure strength is good, appearance of vinyl resin material, warm and not cold.
- B: surface split molding.
- C: upper edge tube style is ergonomic and comfortable to grip.
- D: lower edge arc shape can absorb impact strength and protect walls.

Features and Benefits:

- Easy to clean
- Anti-corrosive & Antibacterial
- Impact Resistant
- Abrasion Resistant
- Rich Color Options
- Green Products
- Highly Malleable
- UV-Stabilized
- Fireproof

Wall Covering is perfect for trouble spots that endure commercial damage , offering high impact resistance. It is durable & easy to clean.

Wall Covering is used at wainscot height or full wall height, can be used as door protection, wall base to protect your walls, doors and cabinetry in any facility and any application.

Wall Covering protects in a broad range of uses, from corridor wainscot and patient room walls, to back-of-house areas and slop sink backsplashes. Or it can simply be used as a finishing touch to complete a unified presentation in wall protection system designs.

All while providing added texture and color to whatever design scheme you choose. Available in 20 standard colors, and any custom color you can dream of, Our wall covering has the versatility to serve your needs.

Accessories, including top cap, Joint Strip, Curve Former, and Outside Corner. Or color-matched caulk provide a continual seamless look.
